BiH CC's decision on PBS Law

BIH CC made a decision that the law on PBS is not destructive for Croat vital national interest

TV PINK – BiH Constitutional Court decided that the Draft law on PBS system does not violate the vital national interests of Croats. According to BiH Constitutional Court, the Draft law on PBS system enables the equality of all three languages, as well as equal representation of all three BiH peoples in PBS Boards. Judge of BiH Constitutional Court **David Feldman** stated that PBS board is not a public body like other public institutions, such as BiH Presidency or Parliament, where equal representing is necessary. However, he also emphasized that the Draft law doesn't prevent equal representing of the constitutive peoples. Croat Caucus of BiH Parliament Assembly announced that they are not going to give up their insisting on establishing of a third PBS channel in Croatian language. They also announced that they are going to address the Court for Human Rights in Strasbourg regarding this issue. They claim that the decision of BiH Court is not valid, because it was made too fast and under pressure. BiH House of Representatives member **Ruza Sopta** stated that BiH Constitutional Court has been under great pressure to make a fast decision. The decision of the Court opens the way to adoption of the law, which is one of the last pre-conditions which must be fulfilled before the start of negotiations on Stabilization and Association Agreement. The Law determines that the program should be produced and broadcasted from three PBS centers: Sarajevo, Banja Luka and Mostar. BiH House of Peoples should vote on this law in the next session scheduled for July 28th.

NTV Hayat – *"It has been confirmed that the statement given by Croat Caucus within BiH House of Peoples on the Law being destructive to Croats' vital national interest did not meet procedural rightness terms since proposal of Law on BiH PBS is not destructive for Croats' vital national interest"*, said the Chair of BiH Constitutional Court **Mato Tadic**. The Court had also discussed and rejected appeal issued by **Seada Palavric** for her right on freedom to speak being violated.

RTRS – Chair of BIH House of Peoples **Velimir Jukic** stated for RTRS over the telephone that the decision of BIH CC is disappointing. Reporter concludes that according to BIH HoP statute deputies in HoP will decide on the law in regular procedure and adds that BIH CC decision is obligatory after it's published in Official Gazette.

**Feature story on
HR's addressing
to BiH
Parliamentarians**

NTV Hayat – One of the events which marked last week was the High Representative **Paddy Ashdown's** address to BiH Parliamentarians. The HR said that OHR was going to be replaced EU office, but that it was up to BiH politicians on when the replacement was going to take place. The HR also said that strategy on the replacement of OHR should be build upon strategy on BiH's admittance to EU. *"As Stabilization and Association Agreement starts, Peace Implementation Council has already made it clear that it is ready to move ahead, very soon, and to start withdrawing OHR. Bonn powers, which have become dominant in BiH political ambient, are going to be withdrawn. Then, OHR should probably be replaced by the EU, namely EU Special Representative, but with no Bonn powers"*, said Ashdown. All of this could be started as of October or November 2005. *"Whether it happens, depends not only on whether BiH is going to meet terms for SAA, but on what is going to happen as of now till next year. PIC is not going to withdraw OHR if not absolutely sure that it is a safe thing to do"*, said Ashdown. BiH Parliamentary Assembly's Commission in charge concluded that the HR's role was extremely useful to BiH and that it was still necessary, although with redefined authorities. But, another issue emerges, namely issue of constitutionality, since there is no single stance. *"BiH Institutions – Parliament, Council of Ministers and the Presidency, along with the OHR, should make an action plan on transferring the HR powers to the BiH authorities, but we must not forget the fact that we will need the institution of HR on our path to Europe"*, said **Martin Raguz**, the Chair of the Commission. BiH politicians say that the HR's powers should be reduced and transferred to domestic politicians. *"BiH, its institutions and people, should bear more responsibility. What International Community showed us so far is that it can control the crisis, but it cannot find the solutions for the crisis"*, said BiH Presidency Chair **Ivo Miro Jovic**. Certain parliamentarians were not thrilled with the HR's speech. *"He was explaining to us how great the situation was, and it does not take an economist or scientist to see that the situation is not as he presents it"*, said SDP President **Zlatko Lagumdzija**, sarcastically.
