## Security, police and judiciary issues

**Two hand grenades thrown on BMW in Sarajevo**

**BHT 1, FTV, Dnevni Avaz** cover, pg 27 'New conflict of criminal groups' – Vehicle owned by **Kenan Krasnic** has been destroyed in explosion of two explosive devices on Saturday night in Sarajevo.

No person has been injured. The police investigation is ongoing. The spokesperson for the Sarajevo Cantonal Interior Ministry **Magbul Skoro** stated that police believes that this was a result of the conflict between different criminal groups.

**Oslobodjenje** pg 46 'Two hand grenades thrown on Krasnic's BMW', **Vecernji List** pg 50 '2 unknown devices exploded in BMW', mentioned on cover 'Bombs in Sarajevo again', not signed, **Nezavisne Novine** pg 14 'New clash of criminals' by D. Muminovic – also covered.

**Update: Matijasevic on Bileca action**

**RTRS, Nezavisne Novine** pg 2 'Internal procedure at PSC Trebinje' by V.I., **Glas Srpske** pg 2 'Those responsible would be penalised' by SRNA – RS Interior Minister, **Darko Matijasevic** informed the BiH Coordination of Journalists' Associations that the investigation on the attack on RTRS employees on 19 October in Bileca has resulted with the arrest of one person and sanctions against most responsible police officials. Matijasevic stated that next step would be internal procedure in the Public Security Centre Trebinje. Matijasevic stressed in the letter that accurate and reliable information can be reached only with the media assistance.

**GS: Advisor to  
US congress  
claims BiH  
plays  
important role  
in world  
terrorism  
network**

**Glas Srpske** cover page story 'From Zenica to jihad' by D. Majstorovic – **Josef Bodanski**, Chief Advisor at the US Congress Department for Terrorist affairs and non-conventional war-waging, told GS that there is a terrorist network in BiH, composed of several good and overlapping groups, that are directly or indirectly accountable to Al Qaeada's leader **Osama bin Laden**. Bodanski notes that authorities in Sarajevo and international community officials are informed about this and he adds: *"What we have in BiH can be only described as a chaos. Not only that the Sarajevo authorities, mostly its Bosniak part, know of this, but they also take an active role in this and make certain benefits from the entire story."* He referred to Zenica as the US investigators' most recent discovery regarding the involvement of BiH in the world terrorist network. According to him, one of the examples could be a series of suicide bombings in Baghdad , claiming that the bombers were trained in Zenica vicinity. Also, terrorists that were arrested in London some while ago confessed to their connections with BiH. Bodanski claims that both IC and authorities are aware of all this but they are not working sufficiently to curb terrorism which is why the US is forced to deal with that. He concluded by saying that if the BiH authorities denied the real threat, one could raise the question of whether they were supporting those persons or were simply the blindest and most incompetent authorities in the world.

**VL: Police reform envisions 4 different regions**

**Vecernji List**, front pg splash 'NEW DIVISION: BiH divided into four regions?', and pg 3 'Police regions – internal borders of BiH', by Zoran Kresic– The daily notes that the Police Reform Commission (PRC), apart from preparing a new legal framework for the future Police forces in BiH, has come up with a proposal of a map of BiH, which would divide BiH into 4 Police regions with seats in Mostar, Sarajevo, Banja Luka and Tuzla, and this leads the daily to say that it is believed that the proposal could be a foundation for future constitutional and administrative changes that are expected to take place next year. VL also notes that that the PRC is continuing its talks in Brussels today, where it should be joined by the EU's **Chris Patten** and **Javier Solana**, and the two are expected to call on BiH officials to reach an agreement, which is an important step on the road to Europe. When it comes to the division into 4 (Police) regions, VL notes it is almost a match for 4 regions that will be collecting VAT generated incomes. VL goes on to say it is very difficult to expect the PRC to reach an agreement since Serb representatives have raised doubts towards establishment of a State Police force, because it is not envisioned in the Dayton Peace Accord and because the division into 4 regions does not match the entity borders. On top of it, VL says the Croat representatives claim there is no logic in having a centralized Police at State level without having the regions with strong competencies. Inset entitled 'Decentralized model' notes that three cantonal boards of the HDZ BiH (cantons 7, 8 and 10) have sent the BiH Security Minister and President of HDZ, **Barisa Colak**, a letter in which they raise some issues regarding the Police reform process. Apparently, the boards note that the Police reform should not take place before constitutional changes in BiH have been completed.

**NN: Police in  
BiH to be  
united**

**Nezavisne Novine** cover and pg 3 'Police in BiH will be unified' by M. Cubro – NN collocutors at Police Restructuring Commission confirmed that the deliberation would be passed in five days time, according to which BiH would get unified police forces. One of NN collocutors noted that: *"The Police Restructuring Commission is leaving for Brussels Monday, where they would have sessions until Friday. It is completely evident that all solutions, related to organisation of the future police forces in BiH, would be harmonised in the coming five days. After these sessions, BiH would get a single police force."* **Dragan Mektic**, BiH Deputy Security Minister and member of this Commission, confirmed that sessions would take place in Brussels, noting: *"Commission would be in session for five days. I am of the view we are currently close to establishment of a single police force."* **Zoran Glusac**, Spokesperson of the RS Interior Ministry, confirmed that **Darko Matijasevic and Radomir Njegus**, RS Police Minister and Police Director, would go to Brussels, where they would present their concept on this issue, without giving any further comment on this. **Zlatko Miletic**, FBiH Police Administration Director, confirmed he is going to Brussels, noting: *"You can get further information on this from Commission Chairman."*

**DL on Police  
reform in BiH**

**Dnevni List**, pg 4 'Entity ministries of internal affairs are being abolished', mentioned on front, by Arijana Beus – The daily notes that some members of the Police Reform Commissions (PRC) have launched an initiative the aim of which is to transfer the competence regarding the work of Police forces from the entities onto the BiH Security Ministry. However, the opposition to that plan is coming from Serb representatives in the PRC and RS authorities. In that context, DL carries the RS President, **Dragan Cavic**, who says the activities aimed at abolishment of the entities' MoIs are impermissible, as well as activities aimed at transfer of authority onto the State level. Cavic stresses that the Police reform should follow in footsteps of the defence reform, whose solutions have been adopted by all sides in BiH including the IC. DL also carries the BiH Security Minister, **Barisa Colak**, who notes: *"The fact is that there are many highly de-centralized countries in which the Police is organized only at the State and local level and I believe that the solutions in our country will go in that direction"*.

<p><b>DL: ‘Illegally gained property will be confiscated from Prce and Rupcic!?’</b></p>	<p><b>Dnevni List</b> pg 3 ‘Illegally gained property will be confiscated from Prce and Rupcic!?’ , mentioned on cover, by <u>Z. Jukic</u> carries that after former Federation of BiH Defence Minister <b>Miroslav Prce</b> and former Director of Hercegovina Osiguranje <b>Miroslav Rupcic</b> pleaded guilty for embezzlement of millions of KM and came to settlement with the BiH Prosecution, the question arises whether the property they gained through illegal activities will be confiscated from them. DL goes on to say that with regard to this issue legal expert <b>Asim Crnic</b> stated for Radio Free Europe that the BiH Prosecution did not insist on return of illegally gained money although the law prescribes such possibilities. According to the article, this case made actual again the initiative for establishment the Agency for confiscation of illegally gained property, proposed by SDP and supported by the opposition, however, the ruling parties (SDA, HDZ, SDS, PDP and Party for BiH) rejected this possibility. DL says that analysts believe that in this way the ruling parties showed that one of their basic goals is protection of money gained through illegal activities.</p>
<p><b>Update to police investigations on several murder cases</b></p>	<p><b>Euro Blic</b> RSpg 12 ‘Circle of suspects is narrowing’ by <u>D.S.</u> – The Serb Sarajevo PSC stated that the police were narrowing down the circle of persons suspected of the murder of <b>Zeljko Markovic</b>, the Serb Sarajevo PSC Chief, <b>Srdjan Knezevic</b>, an assistant Chief of the same PSC and <b>Risto Jugovic</b>, the Director of the “Jahorina” Insurance Company. <b>Radovan Pejic</b>, the Spokesperson for this PSC, told the daily that investigative activities have taken a good course and that the public will be informed about their results soon. He could not give any further details in the interest of the ongoing investigations. The only details that are known with regard to the 3 murders are that the victims were murdered from firearms. Motives and perpetrators still remain unknown.</p>

## Political issues

**Croat-American  
lobby: Covic  
under pressure  
for approving  
exemption of  
US citizens  
from ICC  
jurisdiction**

**RHB, Oslobođenje** cover splash, pg 2  
'Pressures because of agreement on  
exempting Americans from extradition' by  
Hina, **Vecernji List** pg 5 'American Croats  
warned Ashdown', mentioned on cover  
'American Croats against pressure exerted  
on Covic', by zk, **Nezavisne Novine** pg 3  
'Termination of further pressures against  
Covic' by SRNA – The Croat-American  
lobbying Association [CAA] demanded the  
cessation of the pressures against Croat  
member of the BiH Presidency, **Dragan Covic**,  
in the letter it sent to the High  
Representative **Paddy Ashdown**. CAA also  
announced possibility for new hearing  
before the US Congress in order to warn on  
the position of Croats in BiH. After  
Ashdown has warned Covic of possible  
sanctions if HDZ was continuing to be an  
obstacle to processing war crimes before  
the local judiciary, the CAA letter signed  
by **George Rudman** says that Covic has  
probably become the target of attack as he  
was in favour of signing the agreement  
under which American citizens are exempted  
from the Laws on extradition related to the  
International Crime Court. The agreement  
was strongly opposed by the UN and the EU.  
The letter adds that the Congress will most  
probably organize the new hearing if  
established that Ashdown's Office punishes  
Covic because of this agreement. CAA  
supports Covic, adding that its arrival  
significantly improved the relationship  
between US authorities and HDZ BiH, and  
Croats in general.

<p><b>Bozanic sends letter to HR Ashdown: 'You encouraged pursuit after me'</b></p>	<p><b>Glas Srpske</b> pg 5 'You encouraged pursuit after me' by <u>M. Dzepina</u> – An open letter, which <b>Dragan Bozanic</b>, the newly-elected BiH Ambassador to Council of Europe, addressed to <b>Paddy Ashdown</b>, High Representative to BiH, reads that <i>"Everything I have done during a tragic conflict in the region, I did publicly, as a journalist who cannot pull back his word. As I have respected then, so I do respect now all of my friends, colleagues and family of – as I can see – still very dangerous ethnos!"</i> The letter further notes: <i>"If claims of "Oslobodjenje" and other media in F BiH are true, I must ask you who has provided you with elements to make such a conclusion about me, since we have never met or spoken? Which advisors have consulted you and why?"</i> He further notes he has been leading BiH delegation at various meetings and conference, took part in preparation of first Laws for BiH, stressing not a single international official has ever questioned the stances he was presenting (saying he has always acted in accordance with the BiH interests). He concludes the letter by saying: <i>"Who and why has frightened of <b>Dragan Bozanic</b> and the presentation of the overall, complex and sensitive interests of BiH in Strasbourg? What kind of BiH we should strive for?"</i></p>

NN int with  
Slaven Pekic  
on names of  
cities with  
prefix 'Serb'

**Nezavisne Novine** pg 9 'RS has realised a decision of BiH Constitutional Court' by S. Gojkovic – In a brief interview to NN, **Slaven Pekic**, RS Minister of Local Administration and Self-governance, claims RS NA has timely realised a decision of BiH Constitutional Court on changes of names of towns and municipalities with "Serb" prefix. **Pekic** emphasises that the Court, by its decision, stipulated that RS NA is to implement the decision and not the Council of Peoples, as it is now mentioned in the analysis of the implementation of the decision. He says that upon the decision of the Constitutional Court, mayors of municipalities with "Serb" prefix in names have discussed new names of municipalities and towns at local level, after which RS Government and RS NA have adopted changes to the Law, by which the decision of the Constitutional Court was fully implemented. He rejects claims that RS legislative authority has failed to implement the decision. Regarding the amendments names of towns, submitted by the Chairman and Deputy Chairman of RS Council of Peoples with an explanation that the proposed names with non-constitutional, **Pekic** says only the Constitutional Court had the right to assess whether the proposals were non-constitutional or not, noting: *"This was about higher, political, interests and I do not want to analyze it, but it is certain that we have respected all decisions, from the entity ones to the highest – state ones."*

<p><b>Filipovic comments on Humphrey's statement</b></p>	<p><b>Dnevni List</b> pg 8 'With EU to Euro-Atlantic integration' by <u>D. Pusic</u> reminds that Head of the EC delegation in BiH <b>Michael Humphreys</b> stated that he fully supports work of the BiH Council of Ministers and that the abolishment of the BiH CoM is out of question. Commenting on this statement <b>Bojan Zec Filipovic</b>, who is an advisor of Chairman of the BiH Council of Ministers <b>Adnan Terzic</b>, stated: <i>'This is a clear denial of the EC, it is clear that there would be no suspension of assistance and I believe that this is the most significant support that the EC gave to the BiH CoM in terms of recognizing the things that we are doing in order that BiH approaches the EU.'</i></p>
<p><b>BHT1 on new political parties in Herzegovina</b></p>	<p><b>BHT 1</b> by <u>Angela Cvitanovic</u> – Political parties that won elections in Trebinje announced better they will improve cooperation with neighbouring municipalities and Croatia with intention to ensure progress in this region. BHT journalist comments that new political parties – Party for Herzegovina, Movements for Trebinje, Gacko and Nevesinje – refreshed political scene in Herzegovina. Representative of Movement for Trebinje won position of Municipality Assembly President. <i>"There are people of different political determinations in our party and those who were in other parties before. Still, I think that we don't have people that are under mortgage, criminals or with criminal past,"</i> stated <b>Nikola Sekulovic</b>, newly appointed TrebinjeMunicipality Assembly President.</p>

**DA reactions  
on Law on  
Conflict of  
Interests**

**Dnevni Avaz** pg 3 'Municipal councillors should be exempted or their status redefined' by L. Sinanovic – DA brings article on the BiH Law on Conflict of Interests, saying that it is confusing when it comes to the functions of the municipal councillors. It also reads that political parties have different views as to how this could be changed in the Law, while officials of some parties who won the mandate at the recent municipal elections announced they would leave that duty as they will not have pension or health benefits, while their salaries are low. SDA Vice President **Seada Palavric** said that no SDA electee announced their departure for this reason, however she adds that the Parliament should adopt changes to the Law. SDU supports the idea of exempting the councillors from the Law. SNSD says that some councillors announced their departure because of the law, while it is similar with PDP. HDZ stresses that the candidates for these positions were aware of the law before they run at the elections and that their compensation is sufficient. SBiH supports the Law.

<p><b>DA int with new Chief of OSCE Mission to BiH</b></p>	<p><b>Dnevni Avaz</b> pg 5 ‘Municipal elections incredibly smooth’ by <u>Mersiha Drinjakovic</u> – Newly appointed Chief of the OSCE Mission to BiH, Ambassador <b>Douglas Davidson</b>, stated in an interview to DA that the organization of the municipal elections went extremely well and smooth. He also praised the work of the local elections boards, adding that the BiH Election Commission should work more in raising voter turnout. As for the current BiH’s chances to join the Partnership for Peace soon, Davidson comments: <i>“I think that the non-cooperation with the ICTY is not obstacle only to admission to PfP. It is an obstacle in a sense of European integration. As HR <b>Paddy Ashdown</b> once stated, there is a very simple solution to this. It is only a matter of wish and readiness of the political parties to do that.”</i></p>
<p><b>GS on possible political coalitions following municipal elections</b></p>	<p><b>Glas Srpske</b> pg 5 ‘Who would join whom, who would be against whom?’ by <u>S. Sabljic</u> – The article speculates into possible coalitions of political parties (at municipal level) while awaiting official confirmation of the BiH Election Commission on local election results. The author notes the problems are not expected in three municipalities in RS, namely Banja Luka (SNSD won absolute majority), Zvornik (where candidate for mayor was supported by seven parties, including SDS and PDP), Srebrenica (13 SDA delegates with 2 delegates of Party for BiH). The author notes that the most specific situation will be in Brcko District, where 14 parties won seats.</p>

UN Day marked	<p><b>RHB, Oslobođenje</b> pg 3 'UN Day celebrated in Sarajevo', mentioned on cover, by <u>El. Cosovic</u>, <b>Dnevni List</b> pg 2 '15 agencies acting in BiH presented' by <u>D. Resic</u>, <b>Glas Srpske</b> pg 3 'Assistance to all'; <b>Nezavisne Novine</b> pg 11 'Un serving citizens, not Government's by <u>S. Lemo</u> – Fifteen UN agencies have marked the Day of the United Nations, 24 October, in the ceremony held on Sunday in Sarajevo.</p> <p><b>FTV, Oslobođenje</b> pg 3 'UNDP's presence is BiH is still important', <b>Dnevni Avaz</b> pg 2 'Processing war crimes before the domestic courts too' – The Chair of BiH Presidency, <b>Sulejman Tihic</b>, stated at the ceremony thanked the UN for the assistance to BiH, and stressed that the cooperation of UN-established Hague Tribunal must be unconditional and complete.</p>

Economic and social issues	
On audit report of West Herzegovina Canton	<p><b>Dnevni List</b> cover pg splash and pg 6 'Canton remained without money from privatisation' by <u>A. Vrebac</u> – The Office for Audit of the Federation of BiH budget has completed the audit report on the work of the West Herzegovina Canton recently which was very negative and which warned of various shortcomings and mistakes in the work of this Canton. According to senior auditor <b>Mirsada Janjos</b>, among the other things, the audit report has shown that the Cantonal budget incomes were reduced at all levels, planned incomes from privatisation were not realized at all and incomes from entrepreneurship have been reduced by even 87,8 %.</p>

<p><b>Zigic demands urgent revision of privatisation in FBiH</b></p>	<p><b>Dnevni Avaz</b> cover splash, pg 2 'Zigic seeks revision of the privatization' by <u>A. Hadziarapovic</u> – DA reads that the session of the FBiH Government on Thursday could be <i>“historical”</i> for the privatization process in the country, as the FBiH Energy, Mining and Industry <b>Izet Zigic</b> will demand for controls of the privatization processes already carried out before the FBiH Parliament votes on the draft Law on Registering shares and contracts on privatization. <i>“I expect that the documents and the list of companies in which it is necessary to solve the issue of the property will be ready for the session of the FBiH Government. I also asked from the FBiH Privatization Agency the list of companies with questionable property. The issue of the property, i.e. establishing the state capital in some companies... makes our work difficult,”</i> Zigic stated for Avaz. He did not disclose companies that he will demand to be revised, but he did not exclude possibility of auditing Aluminij, Tobacco Factory in Sarajevo and Sarajevo Brewery.</p>
<p><b>RTSR update to Banja Luka Clinical Centre</b></p>	<p><b>RTRS</b> by <u>Zeljka Konjancic</u> – The Banja Luka Clinical Centre faces a number of problems which should be solved with the action plan for its consolidation, while at the moment the Centre allows no new employments, no grant of specializations and it is possible that some will be fired. RS Minister of Health and Social Welfare, <b>Marin Kvaternik</b> said that management of the Clinic has been delaying the implementation of the systematisation plan, adding that the new organizational structure stipulates changes which also include redundancies. Director of Clinic, <b>Dragan Kostic</b> stresses that the Clinic has no surplus of employees and he said that systematisation should aim at reorganizing the duties and not redundancies. Chairman of RS Union of Health, <b>Milenko Granulic</b> said that number of employees depends on a number of patients wondering how one can speak about surpluses of health works without accurate information on the population as census was carried out in 1991.</p>

<p><b>NN update to Makroprom case</b></p>	<p><b>Nezavisne Novine</b> cover and pg 5 'Technologist of "Makroprom" cooperating with the Prosecutor's Office' by <u>D. Risojevic</u> – The article brings an update to "Makroprom" case, saying that <b>Zeljko Gladovic</b>, the Chief of Prijedor plant of "Makroprom" firm, is in a detention, while <b>Nenad Mutic</b>, the chief technologist of the firm, was released after he had agreed to cooperate with the Prosecutor's Office. Gladovic and Mutic were arrested on Friday in Prijedor on grounded suspicion of being involved in a number of crime acts, together with Makroprom owner <b>Ljubomir Gladovic</b>. Banja Luka District Prosecutor <b>Milan Tegetlija</b> has stated that: <i>"Mutic has agreed to cooperate with the Prosecutor's Office so he was released. In his statement before a judge, he pointed on numerous irregularities, especially ones concerning health, in the process of production in "Makroprom" firm, which the Prosecutor's Office has been suspecting on in the past."</i></p> <p><b>Nezavisne Novine</b> op-ed pg 7 'Del Boy from Prijedor' by <u>Dragan Risojevic</u> – The point the author is making is that the "Makroprom" affair has ascertained that chaos is reigning at our market and not so many people are trying to put it in order. He is critical of the sanitary inspectors, who should have raided the premises of "Makroprom" a long time before Banja Luka Prosecutor's Office did it, since the job of inspectors is to take care of sanitary affairs and what people drink and eat.</p>

<p><b>RTRS on Brcko District's external debt issues</b></p>	<p><b>RTRS</b> by <u>Rade Grbic</u> – Brcko District Government and the Office of Mayor believe that request of RS Government for Brcko District to pay the external debt of public companies with seat at the district's territory, which reached total value of 32 million, is not an obligation of the District. District's Tax Administration explained that according to the final arbitrage decision the public debt is to be serviced by the Entities. Previously, RS Government has called upon the BiH and RS Laws on External Debt insisting that District should pay the debts towards foreign investors which gave credits to several public companies. RS Government argues that the International Bank for Reconstruction and Development asked for the allocation of the credits to be decided on after the announcement of the final arbitration decision. <i>"We expect that we will, as we did until now in that area, have a support from the International Institutions, OHR, IMF; that this kind of support for this kind of activity will follow and of course we insist to have BiH institutions involved in solving this issue,"</i> said <b>Radmila Mihic</b>, Chief of RS Finance Ministry's Press Office. The debt refers to three periods: obligations of the public companies made until the 31 December 1991, obligations made during the war and thirdly the loans taken in a period from the final arbitrage decision until the establishment of District's institutions. <i>"That means that all these debts have been taken over by RS [that should] service them and not companies entering the privatization process"</i> said <b>Osman Osmanovic</b>, Director of Brcko Tax Administration. Asked how is it possible for already privatized public companies not to return their debts and to be allowed to register profit, the Administration says that this is a responsibility of the RS Government who instructed through the Privatization Law not to record all external debts. RS Ministry says they will keep pushing their demand, and that they will inform OHR, International Bank for Reconstruction and Development, Office of the Brcko District's Supervisor and BiH Ministry of Finances and Treasury on this issue.</p>

<p><b>Update to issuance of electricity licences</b></p>	<p><b>Nezavisne Novine</b> pg 2 'Consumers will choose from whom to buy electricity' by <u>R. Cengic</u> – The Power Regulatory Commission of BiH (DERK BiH) will start issuing licences for authorised international sellers of the electricity in BiH, but also for authorised local companies that can buy electricity produced abroad. <b>Mirsad Salkic</b>, Chairperson of DERK, notes that: <i>"In this manner, the consumers in BiH would be enabled to buy electricity anywhere in the world where conditions are more favourable."</i></p>
<p><b>Savers planning to press charges with Strasbourg Court</b></p>	<p><b>Dnevni List</b>, pg 7 'Old foreign currency savings before International court', mentioned on front, by <u>Dario Pusic</u> – Following the adoption of the Proposal of law on determining and way of settling of internal obligations of FBiH in the FBiH Parliament's House of Representatives, the President of Association of savers of FBiH, friar <b>Gabriel Mioc</b>, assesses the law in question as highly illogical and detrimental to the savers because the focus of the law is on payment of old savings through bonds. According to Mioc, the law is deceiving the savers since the payment of bonds is due in 20-30 years time. Mioc also notes should the Proposal of law be adopted in the FBiH House of Peoples, the Association of savers will be pressing charges with the European Human Rights Court in Strasbourg. <i>"That's our only option"</i>, says Mioc, noting that the BiH Constitutional Court has approved launching of the process.</p>
<p><b>DL: HT Mostar closer to offering GSM services on its own</b></p>	<p><b>Dnevni List</b>, pg 5 'HT Mostar closer to offering GSM services on its own', by <u>J. P.</u> – The daily got a confirmation from a source close to the FBiH Government that the FBiH Government is supporting the idea that HT Mostar starts providing GSM services on its own. According to the source, should the memorandums of understanding with HT Zagreb and Mobilkom Austria not change, HT Mostar could decide to offer services independently. However, DL notes that the fact remains that HT Mostar does not have the necessary infrastructure, therefore an agreement between HT Mostar and Eronet should be a logical move.</p>

<p><b>Lasic on privatisation in BiH</b></p>	<p><b>Oslobodjenje</b> pg 15 'We will stay the country owned by the foreigners', mentioned on cover, <u>by Hajdar Arifagic</u> – <b>Jago Lasic</b>, the president of the FBiH Commerce Chamber, warns that BiH strategic companies are going into the ownership of foreigners: <i>"I think that the first to be targeted by the foreign investor are domestic so called strategic companies in the field of telecommunications, energy, forestry, water and some utilities companies. Those are mainly attractive companies for which there is no need currently to be privatized and they should stay in the majority state ownership. Otherwise, the state is to loose the strategic functions over these activities. We will practically be the country owned by foreigners with a worry for social consequences caused by the privatization of the both unsuccessful and successful companies. Telecommunications are first to be targeted, than Elektroprivredas. I wonder what will be known as Bosnian. Nothing I think!."</i> He concludes warning that foreigners</p>

<p><b>War crimes</b></p>
--------------------------

<p><b>Update to Sarajevo war crimes Commission establishment</b></p>	<p><b>EuroBlic</b> RSpg2 'Fear of truth' by D. S. – The author investigated on whether a Commission for investigating on truth on sufferings of Serbs, Croats, Bosniaks, Jewish people and others in Sarajevo between 1992 and 1995 would be established. The article reads no representative of the official authority in BiH can give an answer to this question. BiH Minister for Human Rights and Refugees <b>Mirsad Kebo</b> says the Ministry has developed information containing a proposal of possible measures for establishing of the commission and forwarded it to BiH CoM. The Minister does not know whether the CoM would adopt the information, adding: <i>"We should not prejudice anything. We should wait for the Council of Ministers to present its stance on the information."</i> He thinks the work of the commission, should it be established, would be financed from BiH budget of institutions. According to report, there is an opinion in political circles in RS that an obstruction exists with regard to this issue, as well as that the Bosniak side does everything possible to prevent the establishing of the commission, because they fear the commission might reveal the truth on sufferings of a shocking number of Serbs in Sarajevo. The Deputy President of RS Association of Former Camp Inmates, <b>Slavko Jovicic</b>, also thinks that Bosniak politicians, fear of revealing the truth and from fear that they will have to stop minimizing the number of Serb victims, are trying to delay or even prevent establishing of the commission. The article also reads that the Director of the Investigation and Documentation Centre in Sarajevo, <b>Mirsad Tokaca</b>, opposes to the establishing of the commission by saying that <i>"this is just politics"</i>. He says a commission for investigation of war crimes exists for the past 12 years already, stressing: <i>"A commission upon a commission is being established and nobody asks how much it costs. Why nobody says in public how much money has the Srebrenica Commission spent'."</i></p>

<p><b>Terzic on new Del Ponte's demand of Herceg-Bosna documents</b></p>	<p><b>Nezavisne Novine</b> pg 3 'BiH authorities would fulfil duties' by <u>M.C.</u> – <b>Adnan Terzic</b>, BiH CoM Chair, on Sunday promised that the BiH authorities would locate and hand the archive of the Commission for prisoners' exchange of Croat community of Herceg Bosnia, adding: <i>"I do not know what exactly <b>Del Ponte</b> is searching, but we certainly need to find that documentation and hand it to The Hague. Without fulfilment of this demand, there will be no admission into PfP nor negotiations on Stabilisation and Association Agreement."</i> Croat Liaison Officer for Relations with the ICTY, <b>Goran Mihaljevic</b>, confirmed that the ICTY Prosecution would demand from the BiH Council of Ministers and the FBiH Government on Monday to submit documents and information which refer to the Department for prisoners' exchange Herceg Bosna, with one month deadline for handing this documentation.</p>
