thermo-electric  
plants on  
electricity  
price for  
Aluminij**

FTV – Coal mines and thermo power plants reacted angrily on decision/recommendation of BiH Presidency related to the prices of electricity (for Aluminij). They fear their position may be undermined if power price would be under market level. Losses resulting from lower prices for Aluminium amount to 20 million KM a year. Thermo plants warn that any under-market price would undermine process of electricity production. Miner's Trade Unions Association was also surprised with the fact the BiH Presidency was discussing power price just for one company and asked for compensation if power would be sold under market price. Dnevni Avaz pg. 8 '15,000 miners will go on general strike if Aluminij gets power at under-market price' – If the electricity would have to be being sold to German Debis meaning the Mostar-based Aluminij at under-parket price, 15,000 coal miners in FBiH will go on general strike, according to BiH Miner's Trade Union Association Enver Caluk. He stresses that the GSM operators would be nationalised, meaning that Telekom Srpske will be run by Serbs, Bosniaks with BH Telekom and Croats with Croat Telecommunication or "Eronet". composition**

RTRS, Oslobođenje pg. 3 'BiH – ten cantons plus RS' – President of the Socialist Party of RS Petar Djokic stated on Thursday that some media have misinterpreted his statement by which the Socialist Party is allegedly in favour of abolition of Federation BiH. "We have just opened the issue of the overall functioning of the BiH Apparatus and we are definitively in favour of RS survival. The Federation is not functioning because they do not want to function and then their problems are carried over to RS," said Djokic. "The initiative of Djokic is a beginning of the idea to abolish RS," said on Thursday in Bijeljina Hadzi Jovan Mitrovic, the Vice- president of DNZ. Mitrovic added that SDS and PDP reactions are lay as these parties are helping disappearance of RS with their actions. Mitrovic said that privatisation is a robbery of all people in BiH by the governing authorities with the help of the International Community "The High Representative would never do this in his country".

He said he just raised the issue of state structure, noting that if anything is to be abolished it is not Republika Srpska but the Federation of Bosnia and Herzegovina as entity, because there are many problems existing in this entity between Bosniaks and Croats. Dnevni Avaz pg. 9 'Abolish Federation, grant RS with the status of canton' also reported on Djokic's address to journalists.

Oslobođenje pg. 2 'Abolishment of the entities' In Focus column by Zija Dizdarevic – Dizdarevic reminds that SDS defending the survival of FBiH because it believes that if BiH is re-composed in accordance to the SPRS initiative: ten cantons plus RS, the RS would actually become the 11<sup>th</sup> canton. Also, Mitrovic criticised SNSD for having voted for the constitutional amendments and ITA law.</p> <p>According to NN, Igor Radojicic, SNSD Secretary General, said it is a democratic right of each party to decide whether it would take part in further implementation of the "Charter for future".</p>
<p><b>Kalinic does not exclude RS Government reshuffle</b></p>	<p>Oslobodjenje pg. 5 'Restructuring of RS Government' – Speaker of the RS National Assembly Dragan Kalinic does not exclude possibility that the RS Government is fully restructured. <p><b>SDA: Salakovac and Grabovica cannot be under control of Mostar Administration</b></p>	<p>Dnevni Avaz pg. 9 'Salakovac and Grabovica cannot be under control of Mostar Administration' – A proposal by Norbert Winterstein, chairman of the Commission for Mostar Statute, that the facilities related to the Mostar public and utility companies should be put under control of the reformed City Administration has caused fierce reactions in SDA. Fatima Leho, the Mostar SDA Board President, said this would put the Salakovac and Grabovica hydro-electric power plants under control of City Council and Mayor. Bearing in mind the proposed election system, this would mean, according to Leho, that Mijo Brajkovic would control not only Aluminij but also the City Council and the entire economy in Herzegovina.</p> <p>Ljiljan pgs. 23-25 'Go in fresh robberies with a new Statute' By <u>Enes Ratkusic</u> – "Deliberately or by chance, the mediator (Norbert Winterstein, Chairman of the Commission for Mostar Statute) forgets that all hydro-electric power plants were once administered by a single enterprise – the BiH Elektroprivreda, and that the two other elektroprivredas have been created exclusively on the basis of taking away/robbing of its ownership. Winterstein now proposes a continuation under a principle of statutory right to take over," said Ratkusic referring to the claims that one of the goals of establishment of Mostar without municipalities was establishment of control of Salakovac and Grabovica hydro-electric power plants.</p>

With regard to the Mostar restructuring, Tihic said that the SDA leadership fully supported the position of the party's Mostar branch meaning the establishment of Mostar as a town with several municipalities. Wondering why the international community in this case was exerting certain pressures and standing by one people (Croats), Tihic said that it might be about a number of things including the talks on Mostar as the Croat capital, talks about the third entity establishment and about attempts of foreign capital in Aluminij to get to the electricity produced in the Salakovac and Grabovica hydro-electric power plants. "What is here a sort of unprincipled behavior when the international community is in question? All citizens in BiH recall very well that the international community was advocating for establishment of a Croat municipality of Usora in Tesanj. This means that, in this case, it was not standing for the establishment of a single municipality of Tesanj but for an ethnic municipality of Usora," said Tihic adding that similar situation was in Zepce. "Double standards cannot be in place, those which are applied when it is about Croats in Tesanj and Zepce, and the other ones when Bosniaks in Mostar are in question," concludes Tihic.</p>
<p><b>UNDP survey: National parties losing support</b></p>	<p>Slobodna Bosna pgs. 18-19 'Coalition of national parties has no parliamentary majority – Party for BiH, PDP left without a half of supporters' By <u>Asim Metiljevic</u> – According to an UNDP research, if the elections would be held nowadays, the three ruling national political parties would not have parliamentary majority and they would hardly gain it even with the assistance of their coalition parties: PDP and Party for BiH. OBS issue**

Nezavisne Novine, cover and pg. 2, 'Prosecutor's Office should investigate whether OBS was violating the Law' – NN interlocutor from BiH Prosecutor's Office yesterday said that the Republika Srpska Prosecutor's Office should seek information from OBS (Intelligence and Security Agency of Republika Srpska), which were published in media yesterday, and also to investigate whether the Law was broken with this OBS "monitoring" of SFOR and ICTY activities. Marinko Jurcevic, BiH Prosecutor's Office, did not want to make any comment on these claims, noting that: "I have not seen the report and hence I cannot speak about it."

The OHR Spokesperson, Vedran Persic, stated that intelligence agencies in BiH are politicised, discredited and are not under proper democratic control. He expressed expectation by the HiRep that all politicians support the draft law on intelligence agency.

<p><b>Interview with SIPA Director Novic</b></p>	<p>Nezavisne Novine, cover and pg. 6, 'Terrorist bud remains in BiH' – In an interview to NN, Sredoje Novic, SIPA Director, says that there are many indicators showing that there is a bud of those in BiH, who are prepared to perform various terrorist activities. Noting that police forces in BiH nor intelligence agencies in the state are not operational enough, Novic expresses astonishment over the fact that not a single security agency of BiH reacted upon recent actions of SFOR. In his view, 'this raises concern. Why – because SFOR conducts arrest, while we have no operational information on it. And this points out that either police structures do not work properly or maybe they do work properly but do not have courage to undertake certain actions.'</p>

<b>Slobodna Bosna on intelligence sector reform</b>	<p>Slobodna Bosna pgs. 26-29 'After he had compromised FOSS and OBS Ashdown in a hurry to transfer their heads to the state level' By <u>Suzana Mijatovic</u> – The author analyses various/different opinions related to the draft Law on BiH Intelligence-Security Agency (OSA), which was delivered to the parliamentary procedure by High Representative Paddy Ashdown last week after BiH CoM failure to adopt it (agree on the text). "One can already conclude that, with the existing personnel potentials of the current Entities' secret services that are supposed to, with OHR approval, make the core of the new OSA, BiH yet for a long time will not have a modern and professional service it, according to Ashdown, desperately needs," Mijatovic concludes.</p>
