Drinjakovic</u> – BiH Foreign Minister Mladen Ivanic said in Sarajevo on Tuesday that he has no information on FBI agents carrying out investigations in BiH. <i>"I have no indications that the FBI is present in BiH. The issue of cooperation with the FBI falls under the remit of the BiH Security Ministry,"</i> Ivanic told a news conference commenting to the statements by US Congress security advisor Yossef Bodansky made in media which said that group of FBI agents arrived to BiH with the task to investigate the presence on Al-Qaeda in BiH. Ivanic recalled the BiH Presidency's stance on this issue which is that every specific case must be properly investigated by the relevant bodies such as SIPA and entities police forces, adding that the BiH institutions cannot accept by default that something like that does exist. <i>"Objectively, the biggest BiH's problem is the issue of cooperation with the Hague Tribunal. As for BiH's image in general, it is rather problematic to have article [mentioning BiH]... which refer to Al'Qaeda, terrorism,"</i> said Ivanic.</p> <p>FTV – Ivanic believes that BiH institutions cannot accept that someone is talking on terrorism in BiH without any evidences.</p> <p>RTRS, Glas Srpske pg 3 'Terrorists in the neighbourhood' by <u>N. Zelenovic</u>; – Ivanic said that objectively speaking, apart from the issue of non-cooperation with the Hague Tribunal, occasional claims on presence of Al Q'Aeda's and other terrorists organisations presence in BiH represent the biggest problem.</p> <p>Nezavisne Novine pg 8 'Claims on presence of Al Q'Aeda are harmful for BiH' by <u>A. Sisic</u> – On this he added: <i>"Our investigative bodies must investigate every single case, because we cannot ignore such possibilities."</i></p> <p>RHB, BHT 1, Oslobodjenje pg 6 'The biggest BiH's problem is the cooperation with Tribunal', mentioned on cover, inset 'I have no indications of FBI in BiH', by <u>Az. <p>PRC's Brussels meeting: Proposal to establish single police force with five regional centre to be presented?</p>	<p>RHB, Dnevni List pg 4 'Few days session of Police Reform Commission' not signed – BiH Police Reform Commission [PRC] has started with the four-day session in Brussels on Tuesday. Framework for reform of entities police forces and forces of Brcko District should be determined on the session which will last until Friday.</p> <p>Nezavisne Novine pg 6 'Police with five regional centres proposed' by <u>M. Cubro</u> – NN collocutor from Police Restructuring Commission confirmed to NN that the Commission would propose the establishment of a single police force, which will – in territorial regard – be divided in five regional centres: Sarajevo, Banja Luka, Tuzla, Zenica and Mostar. During Tuesday's session in Brussels, the participants of the meeting were familiarised with the model of Swiss police, according to NN source.</p> <p>Dnevni Avaz pg 2 'Unified police will be organize din five regions?' – DA brings the same claims as NN [from a source close to the commission], and adds that Radomir Njegus and Darko Matijasevic again oppose the proposal by the European Union. They both believe that better police forces do not necessarily require big changes in the structure.</p> <p>BHT 1 by <u>Elvir Bucalo</u> – Commission Chair Wilfred Martens said that preparations for this meeting were long, and included analyses of practices from Europe. BiH Security Minister Barisa Colak stated that BiH has never had such a large police forces before.</p> <p><i>"Unfortunately, we have situation where we have more police officers in a smaller BiH entity (RS), than we had earlier in the entire BiH. We have to rationalize police structures,"</i> said Colak.</p>

<p>RS parties oppose unification of the police forces in BiH</p>	<p>BHT 1 by <u>Mirela Cosic</u> – Political parties in RS believe that police reform will include unification of the police forces at the state level, announcing they will not support that. On the other side, FBiH politicians support state level coordination of police forces. <i>"I don't think that we can reach consensus on unified police structures at the moment, even though I personally... and my party would like that,"</i> said SDA representative Irfan Ajanovic. HDZ representative Velimir Jukic stated that he personally supports the idea of establishing the police forces at the state level. <i>"I believe that at these talks in Brussels, we will find a solution that will be satisfactory and at least denied,"</i> said Julic. For RS politicians, unification of police at the state level is not acceptable. <i>"We are not against police restructuring, but we are against abolishment of RS Interior Ministry,"</i> stated PDP representative Velimir Sakan. <i>"Unified Interior Ministry at the state level isn't a pre-condition to carrying out efficient work, arrest war criminals, terrorists and criminals,"</i> said SNSD representative Nikola Spiric.</p> <p>Oslobodjenje pg 3 'Both authorities and opposition against unification' by O. Vukovic – RS Government spokesperson, Goran Radivojac, stressed that despite the reforms, RS Interior Ministry will exist "whether some like it or not." <i>"There are three persons talking about the changes of the Constitution – Haris Silajdzic, Sulejman Tihic, and Nikola Spiric. We expect from Spirici to explain in whose interests he promotes the changes to the BiH Constitution,"</i> added Radivojac. SNSD Leader Milorad Dodik also opposes the concept of unified police forces, adding that existing MoI should be made more successful. <i>"Unified MoI would stipulate constitutional changes, and we do not accept that,"</i> stressed Doddik.</p> <p>Oslobodjenje pg 4 'Special structures for arrest of war crimes' by <u>Onasa</u>, Dnevni List pg 4 'Abolishment of RS MoI is unacceptable' by <u>De.L.</u>, Glas Srpske pg 3 'Strike to Constitution' by <u>M. Mi</u> – Dodik met with OSCE Head Douglas Davidson and said on the issue of police restructuring: <i>"It is illogical to have RS police working on arresting of war crimes indictees, while others are working on abolishing it. This is not a reform. This is desecrating of the constitutional organisation of BiH."</i></p> <p>Nezavisne Novine pg 6 'One police established in BiH through establishment of SIPA' by <u>V. Popovic</u> – Borislav Bojic, SDS Vice President, claims that RS MoI would not be abolished, noting that police reforms needs to be implemented on the sample of defence reform. Tarik Sadovic, Head of SDA Caucus at the RS NA, is of the view that police reform is a necessity, and also that there is a constitutional grounds for existence of SIPA at BiH level and police forces at entity levels. Slobodan Popovic, SDP Vice President, is of the view that police force in BiH would be unified.</p> <p>FTV – OHR Spokespersons Oleg Milisic explained that the Commission's report will have to go through the parliamentary procedure. He added that Police Reform Commission should be enabled to do its job.</p>

<p>DA claims EU rejects Dragan Bozanic's appointment</p>	<p>Dnevni Avaz cover splash, pg 2 'Bozanic is not going to Strasbourg after all' by <u>S.N.</u>—The EU Ambassadors have decided not to accept the decision of the BiH presidency to appoint Dragan Bozanic to the position of BiH Ambassador to CoE. According to 'credible diplomatic source', at the meeting held two days ago in Sarajevo, ambassadors decided to demand from Presidency to change the decision and to send someone more appropriate. US also support this stance.</p>
<p>Ivanic claims no reaction from CoE on Bozanic's appointment received</p>	<p>BHT 1 by <u>Lejla Redzovic</u> – BiH Foreign Affairs Minister Mladen Ivanic stated on Tuesday that the Ministry hitherto has not receive any reaction from the Council of Europe regarding the appointment of former Radovan Karadzic's Information Minister Dragan Bozanic to position of the BIH Ambassador to CoE. Ivanic added that BiH Presidency is fully responsible for this appointment. Ivanic also said that the Presidency will discuss the appointments of 11 new ambassadors in the coming days. <p>State Department denies WT article: Bush will not change policy towards ICTY</p>	<p>Oslobodjenje pg 3 'No change of US policy towards the Tribunal' by Onasa, Dnevni Avaz pg 3 'Bush is not closing ICTY down' by S.N., Glas Srpske pg Support to The Hague' – State Department officials claim that there will be no change of policies of the US President George Bush towards the ICTY. Reacting to the article which appeared in the Washington Times, State Department's spokesperson Adam Earley stated that "there will be no changes in policies on that issue." WT published that Bush intends to dramatically shift the policy also requesting the abolishment of the ICTY. <i>"I saw the reports on that article... I repeat, USA intensively support the work of the ICTY and its efforts to bring before the justice persons who violated the international and humanitarian law,"</i> said Earley.</p> <p>Dnevni List pg 3 'Prison camp inmates are expecting Prosecutor and bills of indictment, official The Hague keeps silent', mentioned on cover, by A. Beus and N. Bise – The US Embassy in BiH denied on Tuesday the information published in 'Washington Times' (see Cropress summary Oct. 26, 2004) and their denial says: <i>'The USA strongly supports ICTY efforts to bring to justice all the persons who violated international, humanitarian law. The US Government still expects from Serbia and Montenegro, BiH and Croatia to meet their legal obligations and fully cooperate with the ICTY.'</i></p> <p>Nezavisne Novine pg 2 'No turnabout towards Tribunal' by VOA, BBC – Early pointed out that the USA would continue to provide financial and diplomatic support to ICTY, calling on BiH, Croatia and SiCG to fully cooperate with the Tribunal. According to NN, in an interview to BBC, Geoffrey Kuchner, reiterated his claim that the closure of the Hague Tribunal is an issue about which both US leading parties – republicans and democrats – agree.</p>
<p>Nacional follow up to WT article</p>	<p>Nacional pgs 2-3 'Is Carla the main cause of Djindjic's murder?' mentioned on cover 'Djindjic was killed because of Carla too' by Vladimir-Valter Mihailovic – The owner of Nacional daily, Vladimir-Walter Mihailovic, has interviewed Geoffrey Kuchner, a reporter who has recently published an article in the Washington Times claiming George Bush intends to abolish the Hague Tribunal. As a follow-up to this article, Kuchner claims Chief ICTY Prosecutor Carla Del Ponte was the main reason why late Serbian Prime Minister Zoran Djindjic was killed. He emphasised this was not his personal view, but <i>'this is a fundamental conclusion that was reached in Washington and, one might say, a reason why Bush intends to close the Hague'</i>. He explained this claim by saying Del Ponte had forced Djindjic to follow her demands, she had turned him against his own country and democratic aspirations of his people.</p>
<p>Maroevic on freezing PWIFCs' assets</p>	<p>RTRS, Nezavisne Novine pg 4 'Each state must decide by itself on freezing of property of Hague indictees' by SRNA – The spokesman of European Commission Delegation in BIH Frane Marojevic stated that every member of EU will decide how to implement the decision of EU Council of Ministers regarding the freezing of assets Radovan Karadzic, Ratko Mladic and Ante Gotovina. He added that this decision doesn't relate to resources necessary for basic life needs.</p>

<p>DL on contradictory information about alleged del Ponte's coming to Banja Luka</p>	<p>Dnevni List pg 3 'Prison camp inmates are expecting Prosecutor and bills of indictment, official The Hague keeps silent', mentioned on cover, <u>by A. Beus and N. Bise</u> – DL says there are contradictory information about the alleged visit of Chief ICTY Prosecutor Carla del Ponte to Banja Luka. According to the article President of the Association of RS Prison Camp Inmates Branislav Dukic gives statements, which say that during their last meeting with del Ponte she announced that she would visit Banja Luka at the end of November or beginning of December. Dukic also said that they received a confirmation letter which says that del Ponte will come to Banja Luka on November 23 and that she demanded that at least 200 inmates attend the meeting with her. Dukic also strongly believes that during this visit del Ponte will bring bills of indictment against Bosniak wartime political and military leadership. On the other hand, DL says that ICTY Prosecution spokesperson Florence Hartmann denied these claims saying that she has never heard about del Ponte's coming to Banja Luka .</p>

<p>FBiH HoP postpones voting on FBiH Internal Debt Law</p>	<p>Dnevni List, pg 6 '14 million KMs of former MIO Fund awaiting pensioners', mentioned on front, by <u>Nermin Bise</u>, Vecernji List, pg 3 'Voting on internal debt postponed again', by <u>f</u> – The House of Peoples of the FBiH Parliament, at its session held on Tuesday did not adopt the law that would define the way of settling of internal debts in FBiH, which includes debts to pre-war old foreign currency savers. The session was adjourned after five new amendments were submitted to the HoP. "Prime Minister [Ahmet] Hadzipasic requested additional time so the FBiH Government could declare itself about the amendments", says the Speaker of the FBiH HoP, Slavko Matic. Matic notes that Zdenko Antunovic and Velimir Valjan from the Croat Caucus submitted two amendments each, whilst Meliha Alic from the Bosniak Caucus submitted one amendment. Amendments talk about the issue of old foreign currency savings, overdue salaries and compensations for the FBiH Ministry of Defence and 14 million KMs, which were blocked in the accounts of the Hercegovacka bank that had been deposited by the then MIO Mostar (Pension Fund Mostar) RHB, BHT 1, FTV, Oslobođenje pg 8 'Vote on Internal law postponed' by <u>S. **BiH HoR

single VAT
rate**

FTV, Oslobođenje pg 8 'Zero and 17% rates to be introduced', mentioned on cover, by V. Zivak, **Dnevni List** cover pg splash 'Single VAT rate' and pg 9 'Single VAT rate adopted' by D. Polovina-Mandic – During its session held on Tuesday the Commission for Finances and Budget of the House of Representatives of the BiH Parliament confirmed all misgivings that a single value added tax (VAT) rate will be introduced after the end of the local elections. DL goes on to say that almost unanimously (apart from SNSD and SDP representatives) members of the Commission rejected amendments, which were adopted at the session of the HoR 2 months ago and thus the initial proposal of the BiH CoM about a single VAT rate amounting to 17 % has been returned on the scene. The article carries President of the SDA Caucus in the HoR **Seada Palavric** as saying: *'The Commission adopted suggestions of the BiH Council of Ministers and the International Community, however, it has made a small difference compared with the first text of the Law in a way that a zero VAT rate has been envisaged for bread, oil, medicines and books.'*

Nezavisne Novine cover and pg 3 'No VAT on food' by M. Cubro – **Nikola Kragulj**, Commission President, said: *"0 Rate of VAT would include export and import food products, and publications apart from printed media (covered under 17% rate). In this manner, we have brought stances by BiH Parliament and international community closer."*

<p>SD on HR's decision to enact amendments to Law on Indirect Taxation System in BiH</p>	<p>Slobodna Dalmacija, front pg splash and pg 17 'Ashdown 'fixes' officials new posts', by <u>Blazica Kristo</u> – Commenting on the recent decision by the High Representative for BiH, Paddy Ashdown, which enables appointment of officials in executive offices with necessary expertise to the Steering Board of Indirect Taxation Authority, the author says the decision is to say the least confusing, given the previous practice regarding amassing of lucrative posts by officials and the HR's decision to impose the Law on conflict of interest from May 23, 2002, which was to combat such practice. SD notes that irrespective of explanations coming from the OHR about the necessity of the decision in question, one has to wonder if there are only few advisors who know the area that good to deserve posts in the ITA Steering Board, is it possible that there is nobody outside state institutions who is good enough to become a member of the Steering Board too. On top of this, the author notes that the decision comes during the visit of members of the Venice Commission, which leads SD to say that HR Ashdown is reluctant to hand over the authorities to BiH officials, so by awarding them with new posts, he is in fact trying to prolong his mandate of the High Representative for BiH.</p>

VL, DL on
return of
non-Croat
workers to
Aluminij

Vecernji List, pg 2 'New pressure of Aluminij', by Zoran Kresic – The author argues that Aluminij is always being exposed to various pressures, be it by the issue of electricity supplies or reinstating of former non-Croat employees to the company. Regarding the latter, VL notes that the Mayor of Mostar, **Hamdija Jahic**, used the good old "trump card" i.e. the issue of return of Bosniak and Serb workers, two days ago during the visit of the British Ambassador to BiH, **Ian Cliff**, to Mostar. The author argues that Mayor Jahic is forgetting that 'Aluminij' is in fact the only company in Canton 7, if not in the whole FBiH, that has abided by the Labor Law, unlike companies in east part of Mostar. In that context, VL says Jahic is forgetting that thousands of Croat and Serb workers lost jobs in companies located in east part of Mostar, and on top of it, the workers did not even get the severance pays they are entitled to. VL argues that Jahic's move/statement in front of Ambassador Cliff is just one in series of pressures in wake of possible solution to the issue of privatization of 'Aluminij'.

Dnevni List, pg 2 'Counting of blood cells', by Ivica Glibusic – Like VL, DL agrees Jahic has no interest in destiny of Croat who used to work in companies in east part of Mostar. The author is also critical of Ambassador Cliff, "*who only sees problems in the composition of blood cells in Mostar's Aluminij*". The author concludes: "*Considering that this is all happening during the time of election of new Mostar Mayor, it is possible that Mostar again becomes town case*".

Election results in Zvornik annulled

RHB, FTV, BHT 1, Oslobođenje pg 3 'Repeated elections in Zvornik on 7 November' by A.T., **Dnevni Avaz** pg 13 'Elections in Zvornik annulled!', **Dnevni List** pg 2 'New elections in Zvornik' by NINA, **Nezavisne Novine** pg 5 'Turnout was 106% at some locations' by A.S. – BiH Election Commission annulled the election results in all 59 polling stations in Zvornik. Commission stated that the results were annulled due to a great number of same signatures on voting lists – namely the turnout of voters at some polling stations was 106%. New elections for this municipality are scheduled for 7th November. **Lidija Korac**, Deputy Chair of BiH Election Commission, claimed that the responsibility for this vastly rests with the members of the election boards at polling stations. Korac also announced possible sanctions against those responsible.

Jovan Milovanovic, President of Zvornik Election Commission, said that Commission has not been informed of this decision of BiH Election Commission so far.

Glas Srpske cover page story 'Elections annulled' by S.S. – Namely, the seven parties supportive of **Budimir Acimovic** strongly opposed to this decision (**Dusko Vukotic**, President of Joitn Election Board of Acimovic, **Lazar Prodanovic** from SNSD, **Milos Jovanovic** from SDS) while **Hadzi Jovan Mitrovic**, DNS candidate, seemingly approves of this decision. According to GS inset "I will win again", Budimir Acimovic expressed conviction he would win again.

Reports and reactions on possible constitutional changes

FTV by Dzenana Zolota – FTV comments that it appears that the international community became aware of fact that that current BiH structure isn't self-sustainable. Venice Commission's visit to BiH was not accidental: journalist comments they came to BiH to check the stances of current authorities on the issue of constitutional changes and now it is only a question of how changes will happen – through consensus or will they be imposed. Opinions on this subject are quite different, but there never was this much talk on constitutional changes as now. *"It seems to me that time has come for certain changes in the Constitution in order to open further ways to establish normal state. Everything needs to be done slowly and smartly,"* said **Ismet Briga** from Party for BiH.

"Constitutional changes in BIH are needed because of expensive and unbearable public administration system. Off course, these changes need to be agreed between three constitutive peoples," stated **Zdenko Antunovic** from HDZ.

"I am against any constitutional changes which include abolishment of the RS. I am for the changes from which citizens will benefit and which will bring us closer to the Europe", stated BiH Foreign Affairs Minister **Mladen Ivanic**. *"There is no dilemma whether we need constitutional changes or not. To achieve these changes, we need to jointly move in that direction. I don't think that it would be appropriate to go for radical changes because we there is no overall readiness for constitutional changes in BiH,"* comments **Semiha Borovac** from SDA.

<p>Gligoric, Novakovic on visit of Venice Commission to BiH</p>	<p>Glas Srpske pg 5 'Checking on constitutional pulse' by <u>S. Milankovic</u> – Tihomir Gligoric, a member of BiH Parliament's Constitution-Legal Commission, claims that due to differences in stances of RS and Federation of BiH regarding the constitutional changes, CoE's Venice Commission will deal with this issue, adding: <i>"The Venice Commission made it clear to us that it is an advisory body of the CoE and that it is here to listen only. However, it is interesting that they have raised the question of decentralization because they wanted to hear an opinion of RS representatives on this."</i> Momcilo Novakovic, a member of the BiH Constitution and Legal Commission, says the Venice Commission came here to check on "the constitutional pulse" and determine whether there is a will in BiH to implement constitutional changes, as well as to determine the stance in relation to HR's decision-making. According to Novakovic, the Venice Commission wanted to know whether de-powering the High Representative, without any constitutional changes, would slow down the admission of BiH to European and Euor-Atlantic integrations. He added: <i>'The Venice Commission was interested to know whether the existing system of the protection of vital national interests was delaying reforms in BiH.'</i> Novakovic is of the view there is no need to seek for new constitutional solutions, and he also thinks there is no need to change the constitutional principle of the protection of vital national interest. GS inset 'Speak' quotes Tihomir Gligoric, a member of BiH Parliament's Constitution-Legal Commission, as saying that the Federation of BiH representatives tried to "hush up" RS representatives at the meeting with the Venice Commission held two days ago.</p>

VL on election of Mostar Mayor	<p>Vecernji List, pg 5 'HDZ could stay without mayor', by <u>Miso Relota</u> – Commenting on results of local elections in Mostar i.e. results for the Mostar City Council (MCC) that is to elect a new Mayor of Mostar, the author claims that the HDZ-led coalition, which won most seats in the MCC (15), would in any normal, democracy-observing country, appoint its mayor, however when it comes to Mostar, it is not certain that the HDZ will be appointing the Mayor. Criticizing the election rules for Mostar, the author claims that <i>“political back-stage games of the IC have the priority”</i>, which leads the author to say that everything is possible in Mostar, including the joint action of the SDP, SBiH and SDA, despite their leaders denying possible coalitions. The author argues that the key to the issue is the SDA-SBiH rapport, and the author's latest information have it that there has been a forcible reconciliation between the SDA and SBiH, since the Bosniaks cannot strategically afford that a Croat leads Mostar in next four years.</p>
DL on problem of extra workers from former Mostar Municipal Administrations	<p>Dnevni List pg 12 '250 employees 'on ice' ', mentioned on cover, by <u>V. Soldo</u> – DL says that the Commission in charge of drafting a program for taking care of 250 extra workers from former Mostar Municipal Administrations was supposed to come up with its proposal for resolving of this issue, however, nothing has been done since the Commission has not been formed yet. According to the article, they were informed by employees in one of Mostar city areas that chaos rules in their offices since citizens still demand services that these offices are no longer authorized to provide them with. DL concludes the article by saying that, by all accounts, this issue, as well as, the issue of appointment of Heads of Departments in the Mostar City Administration are tasks that Mostar Mayor Hamdija Jahic and his Deputy Ljubo Beslic will leave to a new Mostar Mayor.</p>

<p>RTRS feature on protection of vital national interests</p>	<p>RTRS by <u>Nada Arlov</u> – Legal solutions in RS and BiH are often blocked by representatives who call upon protection of vital national interests. This protection has been used everywhere and, according to SDS, even in the fields where there was no reason for it. Desanka Radjevic from SDS says such was the case of the Law on buying business premises and garages in which in her opinion asking for protection of VNI was “ridiculous”. SDA claims that they call upon this only when necessary. Remzija Kadric from SDA says that more laws were passed then stopped. Mladen Ivanic from PDP thinks that when it comes to calling on the vital national interests it is more in the party’s interest than national. In the opinion of SNSD, protection of VNI has the only goal to destabilise institutions and delay initiated processes. Milorad Dodik from SNSD says that a consensus should be reached and further move matters to the level of BiH House of Peoples. He adds that it would be good to define fields in which protection of VNI can be asked for. RTRS reporter concludes asking the representatives what would be the most vital Serb national interests. Most of them answered: RS as permanent and unchangeable category.</p>

SD says Ivan Lovrenovic to testify for prosecution in Croat self-rule case trials

Slobodna Dalmacija pg 17 'Ivan Lovrenovic a prosecution witness against Jelavic', by Zlatko Tulic – The daily carries a highly negative article about the role of a Sarajevo-based writer/journalist, **Ivan Lovrenovic**, who is, according to SD, to appear in the Croat self-rule trials in capacity of prosecution witness. SD notes that despite Lovrenovic's efforts in which he tries to deny that he will be a prosecution witness in the said trials, the last page of the indictment against seven Croat officials (**Jelavic** and others) lists him as one of prosecution witnesses. SD goes on to say that Lovrenovic found himself on the list because the OHR recommended so, since Lovrenovic is a "worthy critic of the HDZ and Cardinal **Vinko Puljic**", and the daily claims that Lovrenovic was recently spotted in a pub in company of Prosecutor **John McNair**, which leads the daily to say "it becomes clear how one becomes a witness in BiH".
