**Topcagic on SAA  
talks: BiH to  
receive no  
special  
treatment**

**RTRS** by Sanja Stankovic – The director of the BiH Directorate of European Integration **Osman Topcagic** denied the information that European Commission could establish a special team to monitor the reforms process in BiH. The only change in the mechanism of BiH negotiations with the European Union refers to the change of the name of Consultative Working Group into Reform Process Monitoring, stated Topcagic. *"I do not know anything about some new and special team... the only announced mechanism are the regular meetings within this Reform Process Monitoring. BiH is not receiving any special treatment, because other countries have the same mechanisms, only under different names"*, explained director of the BiH Directorate of European Integration.

BiH priorities remain the same: cooperation with The Hague Tribunal, police and administration reform, organisation of the united BiH market, changes to the BiH Election Law, and the adequate preparation of the BiH Directorate of European Integration.

Topcagic announced that, after the phase of political dialogue with the European Union, in 2006 BiH would enter the phase of economic dialogue, which Topcagic believes is the proof that BiH is ready to join the European integration.
