Constitutional Changes

HR CSS:
Proposed
constitutional
changes are
necessary for
strengthening
of state
institutions

PINK – High Representative **Christian Schwarz-Schilling** once again welcomed the decision of BiH Presidency to send the amendments to BiH Constitution to parliamentary procedure. Schwarz-Schilling stated that the proposed changes were necessary for strengthening of state institutions and that they needed to be adopted. He stresses that if the amendments do not become effective on time before the October elections, their full implementation would have to wait until 2010, and this would slow down BiH process of integration with the EU. *“I know that there were pretty sharp critics against the agreement on constitutional changes... but we must see what is possible at this moment and what can be done”*, said Schwarz-Schilling. He stressed that the changes must be made step by step, also announcing that the OHR is going to be closed by spring 2007. By then, the duties of HR will be taken over by EU Special Representative. Unlike HR, EUSR won't have the Bonn powers. **RHB, RTRS** – HR said that this reform represents the first step towards a functional state, stressing that it is now time for a true democratic process to happen in the parliament and for parliament members to decide on amendments, which would strengthen the Council of Ministers and Parliament Assembly, and to simplify the work of Presidency. (**Nezavisne Novine** cover pg splash and pg 3 'BiH gets a lot' by D. Intellectuals stress the need for OHR for at least next 2 years; HR CSS: 2006 is key year for BiH

BHT – Commenting the statement of the HR, **Christian Schwarz-Schilling**, that OHR should be closed by spring in 2007, Association of independent intellectuals 'Circle 99' pointed out the need for OHR to stay in BiH for at least next two years by saying that *"BIH institutions do not see the interest of the state but the interest of all three constituent peoples, political parties and political lobbies respectively"*. **Jakob Finci**, member of "Circle 99", described BiH as a little baby that still needs the guidance of OHR *"before it starts the elementary school i.e. enters the EU"*. Head of 'Circle 99' **Hidajet Repovac** noted that *"the adoption of new constitution as basis of BIH transformation toward EU"* is expected. HR stressed that it was time when BiH citizens should decide upon their future emphasizing the important role of the BiH intellectuals. *"The improvement of civil society is of great importance for development of BiH, where the leading role belongs to the intellectuals"* stated Schwarz-Schilling. **Hayat** – HR stressed that 2006 is a key year for BiH especially due to October elections, which should strengthen the voice of BiH people rather than being cheap political game of its politicians. As far as constitutional changes are concerned HR stated that he is not completely satisfied, however he added that the changes were made in areas where that was possible, reminding that time is running out for adoption of constitutional changes. **FTV** – HR stressed: *"And thus intellectuals and their influence on media create the atmosphere for organising the elections. What is the level of discussions is the question for politicians. All of them should sit down together and start the dialogue in order to see what they have been really saying. The transparency as a part of democracy must be included in the forthcoming elections."* (also reported by also reported by **Nezavisne Novine** cover pg splash and pg 3 'BiH gets a lot' by **D. Constitutional
changes are
much better
than current
situation,
especially in
area of state
authorities

Dnevni Avaz cover splash and pg 5 'I would also talk to Pope about constitutional changes' by Admir Malagic— In interview for DA, Chairman of BiH Presidency **Sulejman Tihic** says he believes that amendments to BiH Constitution would get the support of MPs in BiH Parliament "*regardless to certain problems and criticism*". Tihic denied all assessments that these changes are leading toward dysfunctional (state) and dissolution of the state, stressing that these changes are "*the dam to any attempts that could endanger territorial integrity and sovereignty of BiH*". Tihic emphasized that these changes are much better than the current situation, adding that in his opinion changes that refer to authorities of the state are the largest success in all this, since defense and security have been transferred onto state level. Tihic stressed that neither Croats nor any other people in BiH has lost anything by these changes, adding that he is soon traveling to Italy to discuss constitutional changes and European path of BiH. Tihic says that he plans to meet Italian President **Carlo Azeglio Chiampi** as well as **Pope Benedict XVI**, whom he would inform about situation in BiH. Inset 'It doesn't mean that Neimarlija is against'- Asked about how SDA MPs in BiH Parliament would vote on constitutional changes, Tihic says that all SDA MPs in BiH HoP and HoR have stated that they would vote in favor of changes, while when it comes to MP [**Hilmo Neimarlija**], who said that he still hasn't decided how he would vote, Tihic says this doesn't mean that he would vote against.

Covic adds that entities were mentioned very carefully during the talks <i>"so that in next step of the constitutional changes the conditions would be created for us to talk about three or more entities or federal units"</i> said Covic, adding that this is the reality of middle organization of the authority in BiH, and it would be discussed in autumn how many would be established in the future.</p>

Mirko Blagojevic, an MP from RS also stated that he would vote against the amendments.</p>

Next session of Steering Board of the Police Reform Directorate in Banja Luka next week

RTRS Branka Kusmuk – Chair of BiH Council of Ministers **Adnan Terzic** announced that the next session of Steering Board of the Police Reform Directorate was going to be held in Banja Luka next week. He said that the Steering Board was going to discuss the objections filed by RS Prime Minister **Milorad Dodik**. Namely, RS Government demands that the Directorate should make all decisions based on method of consensus and not by method of majority vote. Also, the RS Government demands that the Directorate should report to BiH CoM and entity Governments and not just to BiH CoM. Dodik stated that RS Government's demands are not meant to obstruct the work of Directorate, but to harmonise it with the Agreement on Police Restructuring and assure equal positions for all sides. Terzic claims that all guidelines for work of Directorate are in accordance with the Agreement. He stressed that the decisions of BiH CoM that have already been adopted can't be changed now.

Elezovic explains the FBiH Pension Fund doesn't have finances for these pensions, stressing that they should be provided by the FBiH Government, even though [as Elezovic puts it] they (Government) are aware that they won't. FBiH Finance Minister **Dragan Vrankic** deems that FBiH Pension Fund is obliged to provide finances, regardless to the way these people are retired. *"It is true that there is no means in the budget for payment of early pensions, but parliamentarians voted for that,"* said Vrankic. Inset "Vignjevic supports Association and the Fund"- FBiH Labour and Social Policy Minister **Radovan Vignjevic** supports the stance of the Association, stressing that this would bring the Fund into critical position.

GS critical of
SDA's policy
aimed at
destroying RS
legality

Glas Srpske pg 5 'They are running Alija's war'
by Z.Markovic – Writing about last week's RS NA
session (which discussed BiH lawsuit against
SiCG and adopted Declaration concluding that
lawsuit is a political act aimed at destroying
legality of RS), GS notes that as much as
political representatives of three peoples in
BiH have shown their unity on some issues, the
irreconcilable consequences are evident to the
same extent on other issues, i.e. stances of
Serb and Bosniak representatives are as
different as chalk and cheese. Daily further
makes a reference to statement **Sadik Ahmetovic**,
SDA delegate gave, telling Serb delegates "*it
is never too late for you to become Muslims*".
Borislav Bojic, SDS delegate, commented by
saying that followers of **Alija Izetbegovic** have
been engaged in a constant "silent war against
Republika Srpska" ever since Dayton Agreement
was signed.

BIH HoP to discuss Law on Elections on Monday

Hayat – At the session scheduled for Monday, BIH House of Peoples will discuss the amendments on the BIH electoral law, adopted by the BIH House of Representatives. Changes to the law introduce passive registration of voters in BIH. One of objections to the changes is related to voting of displaced persons from RS who had their CIPS ID taken in FBIH. Chair of Srebrenica municipality assembly **Sadik Ahmetovic** stated that changes to the law mean that people who voted in 1991 for municipalities they were deported from are now passively transferred to municipalities where they had their ID taken. On the other hand **Vedran Hadzovic** from BIH Election Commission stated that the changes to the law were made under assumption that displaced persons have taken temporary CIPS IDs. He adds that displaced persons will be asked whether they will vote for municipality where they lived in 1991 or their current municipality. Reporter comments that the biggest problem are people who failed to register as displaced persons in the set deadline and have taken their CIPS IDs in FBIH. According to information of BIH Election Commission, there are 20 000 of these persons. These persons will have the option of questionnaire when voting so they can state for which municipality they want to vote. Hadzovic says that persons who want to vote for 1991 municipality will have to have an ID from that municipality. **RHB** – BIH HoP deputies are also scheduled to discuss amendments to Law on BIH ombudsman and amendments to the Law on BIH public procurements. Sehic stressed that essence of passive registration is that all BiH citizens would be automatically included into the central voters list, which means that all refugees with IDs would be listed. Sehic stressed that displaced persons have the right to choose where would they vote, in their former residences or in places where they reside now. Member of Working Group for drafting of BiH Election Law Emir Jahic stated that decision on passive registration was passed at proposal of all parties and confirmed by the BiH Parliament.</p>

This proposal has been adopted by the FBIH House of Peoples. VL explains that DERK imposed to EP HZ HB to pay compensation for transfer of electricity amounting to 6 Euros per MW, while at the same time EP BiH and EP RS have been '<i>stimulated</i>' by compensation of 2,5 Euro for export of energy. in BiH are
dropping

Dnevni Avaz pg 8 'Interest rates in BiH will decrease' by N.Jamakovic – BiH Central Bank Governor **Kemal Kozaric** said that interest rates in BiH had decreased by 3% in last three years, adding that this trend would surely continue. Kozaric says interest rates do not only depend on supply and demand, but also on the legal framework that would enable banks to provide more favourable treatment to clients. He underlined that one of positive factors in change of banking system in BiH would be establishment of supervision at the state level.
