Mrakovica meeting

**Mrakovica
meeting
discusses
establishment
of BiH single
economic
space**

Oslobodjenje cover, pgs 4&5 'Incomes from excises in the state stocks' – BiH Prime Minister Adnan Terzic said Monday in Mrakovic that a package of urgent measures, aimed at creating a single market in BiH, would be implemented in the next couple of months, regardless of limiting constitutional competencies. RS and FBiH Prime Ministers Dragan Mikerevic and Ahmet Hadzipasic signed an agreement ensuring excise taxes on domestic products to be paid at the place of original producer. Terzic said that this system would primarily help businesses in BiH avoid the existing practice of double taxation.

The agreement also calls on the ITA to come up within 60 days with a proposal of necessary legal changes that will ensure that excise taxes on imported and domestic good are paid to a single account of the Indirect Taxation Administration. RS PM Dragan Mikerevic said that the meeting was focused on resolving the problem of domestic oil production: "The agreement is significant for the Oil Refinery in Bosanski Brod because it opens the possibility for its products to be used in the entire country. This removes administrative barriers from the Refinery to sell its products and at the same time allows all other producers of excise goods to have a single economic space." The ITA Steering Board has been tasked to prepare within the next 90 days legislation that would finally regulate the sector of high excise goods in the entire country, which should lead towards the establishment of a single economic market in BiH.

Nezavisne Novine cover and pg 2 'Abolishment of double taxes'; All participants of yesterday's meeting at Mrakovica share the view that BiH will meet all pre-requisites necessary for launchment of talks on SAA.

RHB, BHTV 1, FTV, RTRS, Dnevni Avaz pg 3 'Economic space must be single', Dnevni List, front and page 5 'Terzic: Secure unified market in urgent procedure', Glas Srpske pg 2 'Excise to change the address' – also cover Mrakovica meeting.

Terzic on the meeting	<p>RTRS by <u>Biljana Knezevic</u> – At the meeting in Mrakovica, Chairman of CoM Adnan Terzic said that this is a true step towards establishment of the single economic space in BiH. On specific changes regarding the income of excises and other, Terzic says that they will not be against entities' constitutions and will not mean taking obligations from them: "The thing three of us have been trying since we taken over our functions is to be able to [agree on] measures through one coordination [effort] and an agreement, ensuring progress for every level of the government, based on its constitutional authorities, in the way that these competencies wouldn't have to be transferred to the state level."</p>

Mostar issues

<p>Ashdown visits Mostar: unification still far from completed</p>	<p>Oslobodjenje cover, pg 3 'Mostar must be united by the municipal elections' – The High Representative Paddy Ashdown has stated that it will take some time before his decision on the administrative structure of Mostar is entirely functional. Three month after imposing the decision on the Mostar unification, High Rep commended Mostar mayor and his deputy, Hamdija Jahic and Ljubo Beslic respectively, "who brought courageous and difficult decisions. At this stage of the Mostar unification process, [things] are going better than I expected." Attending the ceremony of official unification of fire brigades from Mostar, Ashdown repeatedly stressed that the process of unification is a difficult one, and that it is only about to face some problems which will be hard to solve such as the single city budget. "I don't want to underestimate the difficulty of the issues which will be before us," said Ashdown. Jahic and Beslic also agreed that the unification of Fire Brigade in Mostar was a big step forward, noting that there was a lot to be done.</p> <p>RHB, BHTV 1, Dnevni Avaz cover 'Integration goes better than we hoped', pg 2 'Fire brigades from Mostar united', Vecernji List front page splash 'Mostar: Ashdown promised university would stay', pg 3 'Ashdown: University of Mostar stays', Dnevni List, front page splash, pg 11 'Ashdown: University in Mostar will not be closed down', Slobodna Dalmacija pg 13 'Firemen united', Vecernji List pg 18 'Ashdown: Mostar still disunited', Nezavisne Novine pg 4 'Mostar united only on paper' – also covered the visit.</p>

RHB, Oslobodjenje cover, pg 3 'Mostar must be united by the municipal elections', Dnevni Avaz pg 2 'University must accept international standards', Slobodna Dalmacija, page 13 'Survival of University', Dnevni List front page splash and page 11 'Ashdown: University in Mostar will not be closed down' – While in Mostar, the HR Paddy Ashdown also met with the representatives of the Student Association of the Mostar Sveuciliste, and rejected the possibility of the international community closing it down. Listening to their concerns, Ashdown stressed: "The draft Law on Higher Education gives guarantees for protection of the Sveuciliste institutions." The Student Council at the University of Mostar has protested against the Law on Higher Education. Speaking to reporters ahead of his meeting with students, Ashdown said that the students' fears were unfounded. The HR reiterated that BiH would lose 42m dollars in aid from the World Bank unless the higher education bill was adopted by May 7.

FTV, BHTV 1 – "If we don't go through it by the 7th of May, then the whole country will lose 42 million dollars. It would mean high decrease of jobs in public sector. Damage has already been made", said Ashdown.

Vecernji List front page splash 'Mostar: Ashdown promised university would stay' and page 3 'Ashdown: University of Mostar stays' – VL also notes that the students' representatives stressed illogical solutions in the proposed legislation that are to be adopted in the state Parliament, but in the same time, they are to be applied at the entity level. VL also notes that the BiH CoM adopted the Draft law by outvoting the Croat ministers.

<p>Jahic: City seals legal</p>	<p>Oslobodjenje pg 9 'City seals legal' – Mostar Mayor Hamdija Jahic denied on Monday allegations of certain printing media that seals used by the Mostar City Administration are illegal. <p>DL on former employees in municipal administrations</p>	<p>Dnevni List pg 5 'Severance pays to former employees in municipal administrations?' by <u>N. Bise</u> – claims it is still uncertain what the future of former employees of municipal administrations in Mostar will be like, noting that according to unofficial information, some 350 people could be losing jobs. Wondering if the IC took into consideration this issue when it imposed the decision to Mostar, i.e. what happens to people who worked in municipal administrations, DL contacted the OHR South spokesperson, Sanela Tunovic, to comment on the issue. According to Tunovic, OHR is not competent for the issue, adding that the City administration of Mostar should be completing the systematisation of jobs in the unified City administration. DL learns from an anonymous source that a working group should complete an organizational scheme and systematisation of the City administration by June 30, which should be adopted by the City Council in July. According to the source, only then we will know how many people the future City administration will hire. DL concludes that the people who remain jobless should be receiving severance pays.</p>

'There is an incredible chaos in the city, it was never this big and bad, the High Representative and his administration are the most responsible for it. We have been warning about the situation in the city for months, but nobody listened to us because the IC decided to make deals with the SDA and HDZ'.</p>

According to Avaz's source in BiH Defence Ministry, SFOR approved brigadiers Sakib Foric, Rizo Pleho and Dzevad Radjo. However, brigadiers Selmo Cikotic, Haris Saric and Jasmin Saric were asked to immediately leave active service without a right for benefits, due to the suspicion of being involved in the war crimes. Serb candidates – Milan Milojcic, Dragos Milankovic, Mirko Tepsic, Dragan Stupar and Stamenko Novakovic – were all approved. **Tihic strongly
criticises
SFOR decisions
on generals**

RHB, Oslobođenje cover splash 'Cikotic and Croat candidates did not pass in SFOR?', pg 7 inset 'Ungrounded decisions of SFOR commander', FENA – The chairman of the BiH Presidency, Sulejman Tihic, has urged the SFOR commander Virgil Packett to reveal to the BiH public and judicial institutions the so-called evidence for his decision to reject a number of candidates for the post of generals in the BiH armed forces from the ranks of the Bosniak people. Tihic believes that the SFOR commander's decision is based on incomplete assessments, which are not grounded on relevant evidence such as ICTY indictments. Stressing that the SFOR commander is duty-bound to reveal "the evidence", Tihic believes that "the request to dismiss a number of brigadiers without giving them the right to retire on the account of their alleged involvement in war crimes is contrary to the system in BiH and the international human rights conventions". The statement stresses that the decision by the SFOR commander is a consequence of a lengthy campaign aimed at treating criminals and victims, i.e. those who defended BiH and the unarmed Bosniak people and those who tried to destroy it, as if there is no difference between them.

Dnevni Avaz cover splash, pg 2 'SFOR's decision is humiliating', Nezavisne Novine cover and pg 3 'Three Bosniaks and five Serbs passed vetting process', Glas Srpske pg 2 'Evidence on table' – Tihic said that the decision of Commander SFOR to fail 6 Bosniak candidates for candidates was scandalous and that it represents the gravest breach of the human rights. After meeting with Packett, Tihic stated for DA: "I said that this was surprising decision for me and I asked for clarification as some are accused of criminal activities, others to had been included in the war crimes." Tihic stated that SFOR did not present him with a single evidence based on which they failed candidates.

FTV – "I believe this decision is a consequence of campaign which tries to equalize victims of the war and criminals", said Sulejman Tihic.

According to him, the BiH Presidency members are now worried with whom to nominate now and whether they would be responsible if BiH is not admitted into PfP.</p>

<p>Kebo on BiH anti-terrorism activities</p>	<p>Oslobodjenje pg 3 'BiH is quite secure' – BiH Minister for Human Rights and Refugees Mirsad Kebo believes that in BiH should intensify and expand preventive activities by integrating them into the international system of protection from terrorism.</p> <p>"Many countries in the world have organized themselves and are jointly creating a defence system to counter-act terrorism and, in this context, Bosnia-Hercegovina should not be an exception," Minister Kebo has told Fena. While he said that there had been no terrorist attacks in BiH so far and that this was encouraging, Kebo also said that, although our country was quite secure, following the 11 September 2001 attacks on US cities, it is clear that no place in the world can be absolutely secure.</p>

<p>US Council for Foreign Affairs member says Balkans to become good path for terrorists</p>	<p>Nezavisne Novine, pg 6 'Balkans region – paradise for terrorists' – Ilan Berman from the U.S. Council for Foreign Affairs, in an interview given to the Voice of America, said that the Balkans had become a route that was being used by terrorists, and that it was on good path to become a paradise for terrorism.</p> <p>"The Balkans is important because it represents a potentially fertile soil for terrorist activities, as the state institutions are weak, there are many failures with regard to the safety of borders, failures with regard to the intelligence services etc", Berman said. He added that the authorities in BiH as well as Governments of many Western countries had recognised the fact that there were a small percentage of militants in BiH who continued to go through radicalisation process and were becoming politically active. "Those are volunteers prepared for groups such as Al Q'Aida, which is now ready to expand its personnel, turn to those who are not Arabians, and recruit those who do not look like Arabians", Berman added. According to him, all indicators suggested that Al Q'Aida was present in BiH.</p>

In that context, Matic says the fact that the decision was taken at the last moment and under threat of the High Representative's sanctions shows that the Croats take the decision as an 'imposed' solution. **Humphreys on
BiH chance
to begin
with
negotiations
on SAA**

BHTV 1 – If BIH authorities fulfil 16 conditions set by the Feasibility Study, negotiations on the beginning of the to Stabilization and Association Agreement could start next year, said Michael Humphreys, chief of EC mission to BiH attending the conference on BiH and European integrations. He also said that the recommendation for beginning the negotiations on SAA would not be given unless BIH achieves improvements. Out of 16 conditions, BiH until now has fulfilled only two. “Implementation of reforms in BIH has to accelerate, if we want to start negotiations on signing Stabilization and Association Agreement by the end of the year. First of all, this depends on efforts by authorities at all levels in BIH”, stressed Humphreys.

Dnevni Avaz pg 4 ‘Dayton Agreement cannot be disturbance for European integrations’ – “If you want to Europe, change what you have to and keep what you can keep. Do not call upon Dayton in those cases when it is obvious that it is a disturbance to the European integrations,” stated Dutch Ambassador to BiH Robert Boscher at the conference.

RHB, FTV, Vecernji List page 5 ‘On BiH’s accession as late as in 2005’ – also reported on the conference.

Zubak said that the NHI would contest the upcoming elections wherever the party has municipal organizations or secretariats. The party will aim to achieve the same election results as those last year. According to Zubak, the NHI will not join in a coalition with SDA, HDZ or SDS. It was left up to local NHI organizations to decide, each one of them individually, with whom to join in a coalition in the upcoming elections.</p>

<p>NN op ed on overall situation in BiH</p>	<p>Nezavisne Novine pg 7 'Who does not let pass to Europe?' op-ed by <u>Miroslav Mikes</u> – The author starts the article by saying that there is a Deity of Son in BiH called OHR, from whose heat many people sweat. He further says BiH, from the geographic point of view, is a part of Europe. He stresses that in Europe, young, intelligent and educated people have a chance to succeed, but in BiH they do not, since the only thing that matters in BiH is whether you are Serb, Bosniak or Croat and whether you are a member of any political party. He completes the op-ed by saying that only young, intelligence and educated people can lead this country out from the crisis. He stresses that time will show that those young people have found their places within progressive parties and groups of individuals, being opposition at the present time.</p>
