<p>Stojicic: Police talks more sensitive than defence reform</p>	<p>RHB – The RSNA Speaker, Dusan Stojicic, stated last night that the police reform is politically much more sensitive than the defence reform suggesting that the IC should be aware of it. Stojicic was speaking at a show called 'Aktualni razgovori', which was broadcast by 'K3 TV', and he noted that the police reform is of crucial importance for the RS. Stojicic believes that a solution, which would satisfy all three sides in BiH, could be reached. He also believes that some police jurisdictions could be transferred onto the joint, BiH state level, however Stojicic believes one cannot abolish the RS MoI.</p>

<p>Professor Vukadinovic on Euro-Atlantic aspirations of countries in the region</p>	<p>RHB featured an interview with professor Radovan Vukadinovic, the head of international studies at the Zagreb Political Studies Faculty. Presenting his view about the future of the countries in the region in relation towards Euro-Atlantic integration, Vukadinovic believes BiH will be sharing, to a large extent, the same destiny with Serbia and Montenegro when it comes to their status in NATO, since the two countries are not yet members of the Partnership for Peace. In that context, he reckons that Croatia and Macedonia are one step ahead of BiH and SCG. Regarding some reports that link the future of Kosovo with RS (Serbia loses Kosovo and gets compensated by getting the RS), professor Vukadinovic does not believe that Bush's administration would go into something like it since the US has bigger issues to deal with at the moment.</p>

Political Developments/Reforms

<p>New round of talks on police reform: No essential progress was made</p>	<p>Oslobodjenje pg 7, mentioned on cover 'Compromise to difficult for Bukejlovic', Dnevni Avaz pg 2 'Maps of regions will be made by March 31', mentioned on cover 'Three principles sufficient for Europe' – A new round of talks on the police reform in BiH at the level of governments' representatives was held on the mountain of Bjelasnica near Sarajevo on Thursday. Participants at this meeting have agreed to establish the State Forensics Institute, and the state Agency for Certification and the Coordination of Entity Training Centres. Most of the time participants discussed three basic principles of the European Union (financing and legislation at the state level, police forces free of any kind of political influence, and the establishment of functional police regions), which they have to respect while carrying out/accepting the police reform. There were two solutions/framework agreements proposed: RS negotiating team made the first proposal (in line with the RSNA conclusions), but it was immediately rejected because, as BiH Council of Ministers (CoM) Chairman Adnan Terzic stated, it envisages the status-quo. RS prime Minister Pero Bukejlovic said to journalists that this was the first time that RS representative proposed general law on police at the State level, which regulates the issues that weren't regulated until now. He believes that significant opportunity for BiH was missed this way. The second proposal was made by Terzic, State Information and Protection Agency Director Sredoje Novic, and BiH Minister of Security Barisa Colak. They proposed the establishment of the Agency which should create the maps of police regions until March 31, 2006. Those police regions, according to this proposal, should be in keeping with EU principles, which means that their borders would cross the inter-entity line. The negotiators from the RS rejected this proposal (because the similar one had already been rejected by RSNA). Chairman of CoM Adnan Terzic stated that European principles are indisputable and that professional Police can't be limited by Entities' lines. <i>"We haven't planned to sign that agreement today. Look, contest of the agreement is something that, in the principle, is already seen- that is the report of Marten's Commission, those are postulates agreed on Vlastic- the agreement is now being discussed and it is about searching of the compromise regarding the contest"- stated Terzic.</i> According to media reports, the next meeting on the police reform has been scheduled for next week in Sarajevo.</p> <p>RHB, Pink, BHT, Hayat, FTV, RTRS, Dnevni List pg 3, mentioned on cover 'Agreement on unified police at sight' by <u>N. Asked why he was blaming Cavic since Serb member of BiH Presidency Borislav Paravac is formally nominating candidates for ambassadors' positions, Tihic said it is clear who is deciding on moves in that part of BiH. <i>'Paravac had not accused SDA, Cavic had. Ivo Lozancic also explains that he asked that the BiH Election Commission submit him a report on Niko Lozancic's property because of recent unconfirmed allegations according to which the FBiH President has recently amassed big wealth in real estate, including an apartment at Orebic and expensive cars, which he could not afford on the FBiH President's salary.</p>
