PDHR Butler and SDHR Ney: RS Government is obstructing adoption of 11 reform laws	<p>TV Pink, BHT1, TV Hayat, FTV, RTRS – At the press conference held on Friday in Sarajevo, PDHR Larry Butler and SDHR Martin Ney stated that the RS Government is obstructing the adoption of 11 reform laws. They also stated that OHR would no longer impose solutions. Instead, OHR will hold the Office of PM Pero Bukežlovic responsible for present negative situation. According to OHR, by blocking these laws, the RS Government itself is endangering the process of EU integration. PDHR Larry Butler stated that the Government of RS is moving in exactly the wrong direction and it is causing the problem, instead of fixing it. The RS Government refuses to, or actively obstructs the adoption of the Council of Europe endorsed guidelines for writing history and geography text books, the harmonization of the State High Education Law with the Bologna process, the adoption of the Law on Obligations, the adoption of the State Framework Law on Conflict of Interest, attempts that allow the state to coordinate and develop agricultural policies, the adoption of the state Law on Pharmaceuticals, the establishment of a Consumer Ombudsman, the transfer of banking supervision to the State level, allow the state to issue bonds to settle debts for frozen foreign currency savings, sign a Transfer Agreement on defence with FBiH, and the adoption of the remaining ITA Laws. SDHR Martin Ney emphasized that the adoption of this legislative is the responsibility of the RS Government, and not the international community. Ney and Butler warned the RS citizens that they are going to be the ones who will suffer the consequences for the acts of politicians who are not working for the interest of people.</p> <p>Nezavisne Novine pg 2, announced on cover RS Government is putting obstacles to reforms and is blocking European path of BiH' by <u>N.
