Dnevni List, page 9 'Decisions are being made without Croats again', mentioned on front, by Zvonimir Jukic – with regards to issuing of internal vacancies for senior positions in the City administration of Mostar (CA), the author notes that according to unofficial information when it comes to posts of heads of departments in the CA, two posts will be allocated to the Croats, two to the Bosniaks and one post to the Serbs. When it comes to heads of city services, DL notes that seven services will be led by Croats, seven by Bosniaks and two by Serbs. Commenting on the news that the internal vacancies for the leading posts have been issued despite the HDZ councilors walking out from the last session of the Mostar City Council, which had taken the Decision on systematization of jobs in the CA, the President of HDZ Caucus in the City Council, **Jadranko Lovric**, notes that no political decision has been taken as to which people gets which senior position in the future CA.

"If there is not that (political decision), it means everyone will apply for every post and the question is what it will look like in the end. We from the HDZ only requested to define some issues before the decision on systematization, and I think there shouldn't have been any problems to harmonize some important issues first, than go to the City Council", says Lovric. Lovric believes that the fact that the Decision of systematization of jobs was taken without presence of the Croat people is *"ugly"*.

Vecernji List pg 5 'I consider it is important to resolve the Ploce Port issue', mentioned on cover, ' To resolve Ploce Port issue as soon as possible' by R. Radic -Asked to comment on cooperation with the **OHR** having in mind recent removals of PDP officials, BiH Foreign Minister **Mladen Ivanic** stated In an interview given to VL the following: *"The OHR's problem is the fact that the OHR does not treat all politicians and all political parties in BiH in the same way. The OHR is too much oriented on Sarajevo...The OHR should leave Sarajevo and be much more present in Tuzla, Bihac etc. I am expecting that the OHR will have the same attitude towards everybody, many affairs appear in public and I am expecting that the OHR treats everybody in the same way. If this does not happen I am afraid that the OHR's integrity will be brought in question at least in one part of the BiH political public."*
