Tihic told a press conference in Sarajevo that BiH's full and unconditional commitment to cooperation with the ICTY had been reiterated at the meeting, but it had been pointed out that one BiH entity, the RS, had failed to cooperate, in spite of its obligations set by the Dayton Peace Accord and other international regulations. "We also discussed transfer of competencies from the ICTY to local courts and the problems that exist here in terms of establishment of a special department of the BiH court that will be tasked to prosecute war crimes," said Tihic. According to Tihic, the state-level institutions are being set up and only when they are set up in full capacity, they will be able to function in an adequate way. "Until that happens, the responsibility for cooperation with The Hague lies on the entities, especially on the RS, since that entity failed to establish cooperation as well as to arrest the most wanted war criminals, Radovan Karadzic and Ratko Mladic," said Tihic. Del Ponte said she had called on the BiH Presidency to provide full political support so as to make the RS to establish cooperation with the ICTY. "We expect results, apprehending of fugitives, access to archives, documents and witnesses," said Del Ponte. Speaking of transfer of competencies to the BiH judiciary, she said The Hague was ready to send cases for which there were indictments and documentation, but the overall process depended on the BiH Court, which was still not ready to try cases. "This country has to be able to ensure fair trials in local courts. I will the first motion for transfer of cases before the Court goes on summer vacation in August. I expect that the BiH Court will be, after that, capable to launch activities on its own," said del Ponte. At the meeting, the participants also discussed the activities of the future intelligence services, the BiH State Protection and Information Agency (SIPA) and the Security Ministry, and concluded that the RS could not be released from its responsibility to cooperate and arrest war criminals until those institutions be set up.</p>

Del Ponte said that she was told that BiH would assume control over security and intelligence in the field of cooperation with the Hague tribunal, adding that "it is the right moment to achieve concrete results". Del Ponte added that by the end of the year her office would issue five new indictments against people of different nationalities who committed war crimes in the former Yugoslav federation. Terzic said that Del Ponte gave her views on the cooperation with The Hague. Terzic emphasized that the Security Ministry, together with the State Border Service, should ensure that the border with Serbia and Montenegro is protected 24 hours, in order to prevent fugitives from escaping. By implementing the adopted laws in the fields of intelligence and security we will have to show full cooperation, emphasizing that the security and intelligence agency, the State Border Service and the Agency for Information and Protection have the mechanisms which should be put at the disposal of the Hague tribunal. According to Terzic, these obligations of BiH do not diminish the responsibilities of the RS authorities. Terzic expects the international community to "sanction the RS' failure to cooperate". "Regardless of NATO's stance and its decision whether BiH should be admitted to the Partnership for Peace at the June summit or not, we want to avoid the European Commission's trap, which among the 16 priorities has included cooperation with the tribunal," Terzic said. Blic pg RS1 'Five new indictments' also carried Del Ponte's announcement of five new indictments by the end of this year.

We have so far achieved that in the trial of General Krstic we proved that genocide against Bosniaks took place here. We are still look for collaborators/participants in the genocide in Srebrenica and we hope that they will soon be arrested", Del Ponte said. She added that great responsibility for the arrest of war criminals lies with RS and Serbia-Montenegro authorities. Apparently, Selmo Cikotic, former Commander of the Operative Group 'West' of the BiH Army, sent the BiH Army's 3rd Corps on September 19, 1993, a report about events in Bugojno, and the Commander of the 3rd Corps, Hadzihasanovic replied the following day. Allegedly, Cikotic reported that the BiH Army had captured 470 HVO troops "among which there are 23 prisoners who are not to be released, because of committed deeds that deserve special treatment". Apparently, Cikotic asked Hadzihasanovic what to do with the 23 prisoners. In his alleged reply, Hadzihasanovic asked Cikotic to transfer the 23 prisoners to "my place at the Zenica penitentiary" where he (Hadzihasanovic) would be stalling the release with UNPROFOR, EUMM, ICRC and other international organizations. Having written all this, the author says that del Ponte should simply ask Hadzihasanovic whether Cikotic had sent the missing Croats to Zenica or not.</p>
