I also told ICTY representatives that in regard to the issue of ICTY cooperation, there must be strong conditionality, but same conditionality should not apply to both, SiCG and BiH,”</i> HR added. Among other things, Schwarz-Schilling stressed that he will intensively work on liberalization of the visa regime for BiH adding that one of his priorities is completion of the police reform. FTV – Dodik also assured the HR the laws regulating the fight against organised crime are to be adopted and the special department in the RS Prosecution is to be established. <i>“I do not want to be the Governor and fully exercise the Bonn powers; I prefer the role of the negotiator or advisor. FTV- Founder of SBIH **Haris Silajdzic** has denied the information carried by FTV, citing Banja Luka's magazine "**Focus**", that he has been denied visa for entering the U.S. Silajdzic stressed at the press conference, that he has a diplomatic passport and visa for an unlimited number of entries into the U.S. adding that the visa was issued in December, 2005.

"Regarding the false information published in the news of BHT 1 and FTV that I have been denied the visa for U.S.A. I have the visa. But. I'm more concerned with the speculations of a magazine without prior confirmation since it is against the ethics and rules of journalism and this is not in the interest of citizens who expect credible information from the media which they pay. I believe that all this is in the service of a campaign using all means available to discredit those supporting different views related to the constitutional changes" said Silajdzic.
