I am particularly not ready to implement the Law on VAT in the form signed by the BiH HoR,"</i> stated CoM Chair Adnan Terzic in an interview to DA. He explains that he filed resignation on Thursday after BiH HoR adopted the Law on VAT with differentiated rate, and that he has already talked with the Presidency members now waiting for their decision whether or not to accept the resignation. Terzic also criticizes BiH Parliamentarians: <i>"[They are not] ready to support radical reforms as suggested by the CoM. Up until now there were some situation when delegates changed some very important laws drafted in accordance with the European standards. In some cases, such as Law on public RTV system, the law endorsed by CoM was rejected by parliamentary majority [SDA, SBiH, HDZ and SDS]. CoM I chare has three presidents of parties, and there is me as SDA Vice President. I simply cannot understand than why delegates from parliamentary majority in many cases revise what has been decided on through census in CoM."</i></p> <p>Oslobodjenje cover splash 'Adnan Terzic filed resignation' by <u>V.Z.</u> – In a statement to daily, Terzic denied that his resignation was asked by the International Community: <i>"They have not insisted [on single VAT rate], but my Government as we have been determined that was the only way to introduce VAT."</i></p>

Cubro</u>, Glas Srpske, pg. 2 'Two rates for taxes' by <u>Srna</u>, SRNA – The House of Representatives of the BiH Parliamentary Assembly on Thursday adopted a bill on VAT, which envisages two VAT rates – 17 and zero. The zero rate is envisaged for all types of bread, milk and dairy products, cooking oils and margarine, books with cultural, artistic and educational contents and textbooks for primary, secondary and higher education, while all other products will be taxed at 17 per cent. The house also adopted an amendment proposed by SDP deputy Zlatko Lagumdžija that the zero rate is applied to newspapers and magazines.</p> <p>BHT – SDP representatives left the session before voting started. They believe that this Law is new strike to poor people. For example, there is tax exemption for milk but not for milk products, for medicines, but not for helping devices, etc. <i>"Average household will spend 500 KM per year more than today. Those funds will be taken from ordinary people and it will be returned to buyers of luxury goods,"</i> said SDP representative Zlatko Lagumdžija. International Community sees the new VAT Law as unacceptable, because they believe that introducing of more than one rate will leave a lot of space for tax evasion. <i>"With one rate pensioners would pay 20 KM for bread more per year. But, with more VAT rates we will loose 200 millions of yearly tax income,"</i> stated Jolly Dickson from the Indirect Taxation Administration (position not stated). The Council of Ministers Chair Adnan Terzic warned that it would be impossible to introduce VAT it hasn't single rate. He believes that Representatives have to consider reality and corruption in BiH.</p>
