Tadic added that cooperation with ICTY demands cooperation by the all police structures in the region, as well as the establishment of the Intelligence Service of SCG, BiH and Croatia. In an interview to "Nezavisne Novine", Tadic said that he assumes what will happen with RS after the NATO summit on 9 December, but he added that RS efforts to cooperate with ICTY are the most serious. On **Ratko Mladic**, Tadic said that he is aware of the fact that Mladic is a pension beneficiary adding that this is his legal right which doesn't cease following the arrest or issuance of the indictment for war crimes. Tadic added that he assumes that someone else, probably his son, receives pension on Mladic's behalf. *"I always have on mind that we all have to face crimes that were committed on our behalf,"* said Tadic adding that cooperation with ICTY is a base of coexistence and peace in the region. **BHT 1** – BHT 1 carries that Tadic stated for Belgrade 's magazine Politika that war crimes suspects must be extradited to the ICTY, underlying that is in the best interest of Serbian people. **Oslobodjenje** cover splash, pgs 4-5 'I cannot guarantee deadline to extradite ICTY suspects' by Nagorka Idrizovic – In an interview to daily, Tadic also warned that if the Dayton Peace Agreement is to be changed without the census of all three peoples it could be dangerous. However, I am sure that citizens of Serbia do not want to have issue of cooperating with ICTY to be a permanent obstacle on the way to EU and improvement of their living standards."* **RHB, Dnevni Avaz** pg 2 'Tadic in Sarajevo, Mostar and Banja Luka', **Dnevni List** pg 2 'Signing of agreement on border is being postponed needlessly' by A. Cavic to meet Dodik to discuss current crisis in RS	RTRS by Biljana Knezevic – RS President Dragan Cavic is prepared to talk to SNSD leader Milorad Dodik about the current political situation in RS, and the talks will take place at the beginning of the week. Dodik said that entire Republika Srpska is in the fear of the NATO Summit on 9 December, and stressed that the RS Government headed by the Prime Minister Dragan Mikerevic could prevent this however failed to do anything about it. Dodik said that RS is in a state of uncertainty which could leave serious consequences for RS and its citizens since the sanctions are being loudly spoken of. SNSD has sent an urgent demand to meet the President Cavic and SNSD has prepared some suggestions to exit the current crises. *"I think that I was very clear [in my suggestions]… The Government should be replaced and responsibility regarding failure to fulfil ICTY obligations should be determined, and new Government composed,"* said Dodik. On the other hand, Cavic said that RS now needs a political consensus and not the Government's reshuffle. *"It is logical that oppositional parties want to see the reshuffle of the Government,"* said Cavic adding: *"I would invite Mr. Dodik to take…I will let him to take over the Government, but I can tell you that his remarks do not stand…this Government is of much better quality and capability than Mr. Dodik thinks*," said Mikerevic. Opposition believes that their talks are not about the power but about protection of RS, and SNSD is certain that after 9 December many things could be different. Cavic agrees with this: *"New wave of sanctions would cause even deeper political crises and certainly in this moment I can't speculate what would be a political response from RS, it will depends on what will happen. I think that sanctions will be counterproductive,"* said Cavic. *"I think that something should be done instead of just standing passively and waiting for someone to undertake some measures,"* said Dodik. **Nezavisne Novine** cover and pg 2 'RS Parliament should replace Government' by D. RTRS: CoM draft new Law on Pardons	**RTRS** by Zorica Rulj – After the High Representative **Paddy Ashdown** revoked thescandalous Law on Pardons, the Council of Ministers has started with the preparations to draft the law in accordance with the European standards. Working group has already been established and international experts from OHR will participate in the drafting process to avoid further misunderstandings. BiH Justice Minister, **Slobodan Kovac**,has no explanation how this law could have got into the parliamentary procedure and be adopted at the first place, even though the Law was drafted in his Ministry. *"There is a question, weather the pardons can even be considered if a proceeding is in progress…Certain things must be regulated more precisely,"* said Kovac. The Law had set that Commission for Pardons and the Ministry should give recommendations for pardons, but it wasn't determined who will be members of the Commission, their number and it was even possible that friends of suspects are in the Commission. Reporter reminds that the BiH Parliament has brought that Law, decided that public and media shouldn't be informed about it and that it is not in the official gazette.
FTV on breaches of the constitution in FBiH HoP	**FTV –** FTV broadcast short feature on the respect of the FBiH Constitution and the provisions on constituency of peoples. FTV presenter says that one of the examples of breaches of FBiH Constitution is the lack of full presentation of the Serb delegates in the FBiH House of Peoples. Two years following the parliamentary elections, there have been still only 11 representatives of the Serbs out of 17 needed in FBiH HoP. This could bring into the question legality and constitutionality of all decisions adopted by current FBiH Parliament. Proposal of amendments to the FBiH Constitution in order to solve this issue was sent to the FBiH House of Representatives five months ago, but it so far it has not managed to get included in the agenda.

Rozic – DL investigates into possibility that BiH Croats, who also have a Croatian citizenship, lose the Croatian citizenship should Croatia join the EU before BiH. Apparently, such possibility was mentioned recently during a meeting between the Croatian President, **Stipe Mesic**, and **Jerko Ivankovic Lijanovic**. DL contacted the Croatian Embassy in Sarajevo , which noted that Croatian laws allow existence of dual citizenship between Croatia and other countries. However, DL reckons should Croatia join the EU, it would mean that Croatia would have to harmonize its legislation to the EU, which leads the daily to say that Croatia would have to give up on the BiH Croats if it were requested by the EU.
Colak on HDZ, SDA and PDP becoming observers with European People's Party	**Dnevni List**, pg 5, mentioned on front 'Malicious people must admit that Europe recognizes us', by D. Polovina-Mandic – DL carries the President of HDZ BiH, **Barisa Colak**, as saying that the fact that the HDZ, SDA and PDP have been granted a status of observers with the European People's Party shows that the parties in question have accepted democratic principles and standards. According to Colak, the said parties have successfully gone through the first "*filter*" by becoming observers in the biggest association of European parties, which has around 90 votes in the European Parliament and which needs only a few votes to have an absolute majority in the Parliament. According to Colak, this is of great importance to BiH and its efforts to join European integration, because without getting closer to European parties, it is impossible to get closer to Euro-Atlantic integration.

FTV on status of HVO disabled veterans	**FTV** by Zeljka Mihaljevic- It has been expected that the inter-state agreement by which Croatia will continue to financially support HVO disabled veterans in BiH will be harmonized by the end of the year. Before signing of the agreement, it is necessary to determine how these funds were spent by now. FTV reports that the Police and Prosecutors' office should soon answer to the question how the Livno Canton Office for Veterans and Disabled Veterans was distributing those funds. After many complaints on work of the former director of this Office, the Cantonal Government and Livno Canton Ombudsmen office demanded audit of work of this Office. FTV also says that Livno and Tomislavgrad disabled veterans suffer consequences of this situation the most since due to suspicious work of the Office they never moved into promised apartments.

FTV on fight against corruption in Tuzla Canton	**FTV** by Halid Rufatbegovic – The future of the Tuzla Cantonal Commission for fight against corruption and organized crime future is under a question. Misunderstandings are a direct consequence of the interference of the political parties at the time when there is an official information on crime growth in this Canton, comments FTV. Certain members of the Commission, dissatisfied with the working conditions and situation, especially obstructions, have announced they will file resignations. *"For entire 2 years, which is how long the Commission for fight against corruption works, we have not managed to completely solve even a single case. DL: Cantons to be deprived of certain incomes	**Dnevni List** front pg splash and pg 3 'Bankruptcy – Cantons remain without incomes' by I. Glibusic – On the ground of the conclusion coming from the Federation of BiH House of Peoples, the FBiH Government sent to the parliamentary procedure last week amendments to the Law on allocation of public incomes according to which Cantonal budgets will be deprived of 12 % of incomes. Commenting on this decision, FBiH Minister of Finances **Dragan Vrankic** stated: '*We chose this option since due to the Free Trade Agreements with neighboring countries customs incomes of the FBiH dropped drastically. Because of this reduction some sort of intervention had to be made in order protect functioning of the FBiH and in order to balance incomes.*' DL concludes that being aware of the fact that Croat Ministers opposed further reducing of Cantonal funds, this move can be judged as a wish of majority in the FBiH Government since Vrankic himself expressed concern over financial problems in most of the Cantons. DL also says that is remains unclear as to how this demand came from the FBiH HoP since representatives of all Cantons participate in its work and where mechanism for protection of vital national interest exists.

Listing amounts of salaries of other international senior officials in BiH (**PDHR Hays, SDHR Wnendt, Prosecutor McNair, Maj-Gen Leakey**), the author notes that despite the EU and USA making an *"exit strategy"* for the next year, one can expect an opposition to the plan from the *"international bureaucratic apparatus in BiH"*, which is generating crisis in BiH in order to prolong its stay in BiH. As an example, VL notes the Law on pardon that was annulled by HR Ashdown, despite being prepared by HR Ashdown's *"experts"*.
