SCG's Ljajic on Karadzic and Mladic arrest; The Times on Karadzic arrest RHB – SCG Minister for human and minority rights, Rasim Ljajic, stated in an interview for Nezavisne Novine (see OHR Media Round-up, August 6, 2005) that Radovan Karadzic and Ratko Mladic might be in ICTY by the end of the year. He also stated that other ICTY indictees Dragan Zelenovic and Vlastimir Djordjevic are hiding

in Russia. Ljajic stated that he has no relevant confirmation that Karadzic is hiding in Montenegro. London's The Times on the other hand claims that Karadzic is hiding there. The Times also claims that negotiations are being carried out for Karadzic's surrender. Vienna newspapers Presse published that politics and religion are closely connected in the Balkans.

Newspaper claims that Karadzic is still at large due to help from the church. Newspapers

also published that the name of priest Amfilohije is often heard when those who are hiding Karadzic are mentioned. Pink – British daily The Times claims that Karadzic is hiding in Montenegro and that Montenegro is swarming with American agents searching for him. The Montenegrin authorities denied these

allegations stating that there is no evidence for Karadzic's presence in Montenegro. The Times further claims that according to close sources to Montenegrin Government, USA Government, Karadzic's family and Serb Orthodox

Church are negotiating for Karadzic's soon surrender. (Ljajic statement also covered by Pink, BHT, RTRS; The Times report also covered by Hayat, RTRS, Oslobodjenje, pg 2 'Hunt for

Masovic on	Hayat - FBiH Commission for Missing Persons
establishment	President, Amor Masovic, commented in his
of BiH	interview for Hayat Central News the recent BIH
Commission	Council of Minister's decision to establish the
for Missing	central BIH Commission for Missing Persons.
Persons	With the establishment of the BIH commission,
	the entity commissions will stop working. He
	stated that the BIH commission would search for
	missing persons regardless of the ethnicity,
	which is very important for BIH and the truth
	about the war. The Associations of the
	families of missing persons will be
	institutionalised and directly involved in the
	work of the commission. Masovic stated that BIH
	is the first country to have the law on the
	missing persons and now the Commission. He said
	that the BIH Commission for missing persons
	would prevent the politicisation of the victims
	and the manipulation of the truth because all
	information will be gathered at the same
	centre. Masovic also commented his recent
	request for the law on refutation of the
	legally verified historical facts on genocide.
	He stated that he was provoked by the
	statements of politicians that publicly denied
	the genocides on these parts while attending
	one of those allegedly round tables for
	reconciliation on these parts. He also
	explained the current work of Commission for
	Missing Persons.

Political Developments/Reforms	
--------------------------------	--

RS President Cavic on DPA: Existence of RS not questionable	Pink RS President Dragan Cavic stated that the 10 th anniversary of Dayton Peace Accord would be pompously marked but on that occasion the IC intends to announce whether the DPA has proved to be successful or not. In order for the DPA to be evaluated as successful, the police reform has to be adopted by November. The obstacles on BIH path toward Euro-Atlantic integration, apart from police reform, are the defence reform and capturing of Radovan Karadzic and Ratko Mladic. Cavic stated that the failure of police and defence reform can impose sanctions on RS but the existence of RS is unquestionable. "DPA has ensured the stability on this region and if they change Dayton organisation of BIH than they will create a new, long-lasting crises with unpredictable consequences" stated Cavic.
Analyst Barasanin on DPA	Pink – Military analyst Ostoja Barisanin claims that organisation of BIH appears to resemble BIH from 1992. He said that RS has already transferred many institutions to the state level so according to Barisanin the DPA has been changed. "By the 10 th anniversary of DPA, RS will struggle for cultural preservation in BIH. They will struggle to preserve the autonomy in the language and culture and not to preserve political and military autonomy" added Barisanin.

Update to	BHT, Hayat – Vahid Alagic and Vinko Dumancic
appointment	are the most serious candidates for the
of SBS	position of State Border Service (SBS)
director	Director, writes Dnevni Avaz. The final word
	on this will be given, most likely, by the
	High Representative, Paddy Ashdown . DA
	speculates that the HR could use his powers
	again if local authorities, presidency at
	first place, don't solve this issue as soon as
	possible.
	RTRS – – BIH authorities cannot agree on the
	appointment of SBS Director. HR Ashdown warned
	that he would appoint SBS Director if BIH
	politicians did not agree. Reporter comments
	that the problem is as always the political
	agreement on distribution of key positions in
	security agencies according to national key.
	Advisor to Council of Ministers Chairman,
	Bojan Filipovic-Zec, reminds that Adnan Terzic
	pointed out this problem before and added that
	concrete solution was not found. Zec stated
	that BIH Justice Ministry completed the legal
	procedure regarding the appointment and added
	that CoM is waiting for the opinion from BIH
	Presidency. Reporter stated that they couldn't
	get any comment from BIH Presidency and added
	that according to national key, the SBS
	Director should be a Croat. Media speculates
	that the most serous candidates are Vinko
	Dumancic and Vahid Alagic. Ostoja Barasanin, a
	political analyst, stated that there are no
	estimates when the appointment will be made.
	He also stated that the announced measures by
	HR on the issue are undermining BIH
	authorities. Reporter concludes that it
	remains to be seen until when SBS will
	function without a Director.

Tihic on appointment of SBS, SIPA director: Novic appointment was HR Ashdown's mistake

Dnevni Avaz, front pg splash 'Our responses are not important to Ashdown' and pg 5 'Appointment of SIPA director was High Representative's mistake', by <u>A. Malagic</u> -Carries an interview with the Bosniak member of BiH Presidency and President of SDA, **Sulejman Tihic**, in which, whilst responding to the HR, **Paddy Ashdown's**, warning that **Sredoje Novic's** appointment to SIPA was legal, says the BiH Presidency will not interfere into the issue or remove the SIPA director because it is not in the Presidency's jurisdiction. "...I came out with my opinion. When it comes to that appointment, I think the HR's decision was legal, however it is of provisional nature. Also, it is one of his (HR's) mistakes, because he made the appointment without abiding by the national representation, which had to be taken care of. Moreover, there was a person from the line of the Croat people on the list of successful candidates who was as successful", says Tihic and goes on to criticize the Novic appointment, questioning his wartime and postwar reputation, saying it is not good that such people lead a new agency that has to show professionalism and dedication in arrest of war criminals. Furthermore, Tihic says that he will not be taking part in possible new talks about distribution of key posts among the three peoples in BiH, arguing that it would appear that the HR and the IC do not seem to find it important. Tihic says the national representation must be observed in order not to have a situation that a BiH people is not represented in key posts at all. Inset entitled 'Ashdown was most successful until December' carries Tihic commenting his statement about lack of decisiveness by HR Ashdown. He says the statement does not include only the HR, but the whole IC as well, arguing that HR Ashdown was the best HR until

last December.

judges and	the reform to judiciary. Among other things,
prosecutors	Peric says the proposed reform to misdemeanour
	court, which proposes joining of these courts
	to regular courts, would cut costs. Peric underlines that the number of unsolved cases
	remains to be the biggest burden of the BiH
	judiciary, and goes on to say that it is not
	true that salaries of judges and prosecutors
	are extremely high. In that context, Peric
	says the salaries range between 2400 an 4500
	KMs, stressing that the judges at same levels
	are paid differently, for example that the
	judges of the FBiH Supreme Court are best paid
	in BiH, not the judges of the BiH Court as
	reports suggest.

Bakic on talks between farmers and BiH authorities

Pink – Chair of BiH Farmers Association, Ranko Bakic, stated that BIH farmers were not satisfied with the fact that the BIH Minister on Foreign Trade and Economic Relations, Dragan Doko, will chair the meeting (between BiH authorities and BiH farmers) but they (farmers) will not boycott it. "The yesterday's (Friday) CoM decision to appoint the commission that will meet with us is cynical since Minister Doko has to take 15 days for his vacation and than to meet with us. His vacation is more important than the needs of the farmers" stated Bakic. He added that they were not going to abandon their requests, since they were supported by International Community representatives. (Dnevni List, pg 5 'Whilst Dragan Doko is resting, we are warming up for negotiations under tents', by E. Reports warn of war in Sarajevo underground

FTV – FTV reports that suspect from Friday's shooting in Sarajevo, Abdulah Sahmanovic, surrendered to local police. Almir Pasic is wounded in this shooting and arrested shortly after, whilst the third suspect still at large, Ramiz Delalic Celo, claims that he didn't take part in this shooting. Sarajevo Canton Police issued arrest warrant for him. "These are two (criminal) groups. We know these persons from previous cases," confirmed Sarajevo Canton Police spokesman, Magbul Skoro. In phone interview for FTV, Delalic says he wasn't present at the location of the shooting. "I have no idea why my name is mentioned. I am not a fugitive and I am now on my way to Sarajevo. I wasn't in Sarajevo at all, and I have several witnesses to confirm that," claims Delalic.Reporter commented that this case opens many questions such as: why Sarajevo became city of shooting and automobile-bombs and which are the two groups that Skoro mentions and refuses to talk about them on the record? Pasic and Delalic accuse Muhamed Ali Gasi and Naser Keljemendi for armed conflicts in Sarajevo and series of murders in the whole BiH. They both also claim involvement of several police officers. According to the street stories, Albanian and Sandzak criminal groups are at war. FTV announced further investigation on this story in the coming days. Reporter concluded with words that there are no any indictments vet, but one dose of heroin can be purchased in Sarajevo for only 20 KM. DNZ says August 7 should not be celebrated as day of liberation of Velika Kladusa	RHB – DNZ feels that 7 th of August (the day when BiH Army entered Velika Kladusa, expelling troops loyal to Fikret Abdic) should not be celebrated as liberation day in Cazinska Krajina since 40 000 citizens left that area 10 years ago. DNZ stated that a time has come for scientific determination of events that took place in Cazinska Krajina. Oslobodjenje, front pg splash and pgs 4-5 'Freedom of exodus for 40.000 people?!', by <u>Asaf Becirovic</u> – Carries the DNZ's statement from above, noting that the same event is perceived differently by members of the former BiH Army and the DNZ. For DNZ, it was exodus of 40.000 people, whilst for the BiH Army, it was liberation of the area.
