Izetbegovic also said that the main aim of the war in Bosnia was ethnic cleansing, and the purpose of peace must be ethnic reintegration. The cause of war was to conduct ethnic cleansing in BiH. That is why the war has begun. This was not a consequence, this was the aim, the motif of the war and of those who imposed this war. Our

aim is to reintegrate BiH and to return the people to their homes. If we achieve this, we shall have a new nature of the Federation. And also a new nature of the RS. This is not going to be that Republic of Srpska as it is today, for you should know that almost half the population was non-Serb at the territory where the RS is encircled with these lines of so-called Republic of Srpska. All friends of Bosnia support this return and all enemies obstruct it.
