Counselors in BiH Federation part of Brcko Municipality discuss final arbitration decision and implementation

Counselors in the BiH Federation part of Brcko Municipality discussed the final arbitration and its implementation. Slow returns to Brcko, especially the Rijeke settlement, have proven to be painful issues. Over the next the several months 500 hundred flats will be emptied in Bukvic and Cerik and an equal number will be demanded in Brcko, says Head of BiH Federation part of Brcko Municipality Munib Jusufovic. "The formation of joint housing issues committee, as instructed by the OHR, is a huge step foreword" says Jusufovic. The slow pace of return, attempts at illegal privatization and the as yet unreturned property of the Islamic community are clearly raising tensions and opinions vary. "Brcko Municipal headquarters never sent any schedule for return. Obviously something is blocked" said Brcko Liberal Party President Admir Muminovic. "I believe that the formation of this committee is key to realizing final returns" stated SDP Councilor in Brcko Izet Banda. "Refugees from Brcko can no longer wait and put up with indefinite prolongation for implementing the final arbitration decision" says Brcko People's Association representative Muhamed Mujkic. "All Brcko people agree that they have been forgotten by many after the arbitration" confirms Jusufovic.

RS SDS and SRS should have been banned long ago – Party for BiH

The RS SDS and SRS should have been banned long ago, " stated Party for BiH General Secretary Safet Halilovic at a party press conference.

"IC support to Richard Holbrooke's initiative to deny support to parties igniting ethnic hatred would enable the collapse of the BiH created by Bosnian Serb leader Radovan Karadzic. If restructuring of the RS government does not occur, RS Prime Minister Milorad Dodik will lose support from the CD Coalition" says Halilovic.
