News Summary

BiH Federation Government considers that Brcko must set example for two-way refugee returns

The BiH Federation Government told Brcko Supervisor Robert Farrand it would give its full support to organized and individual returns from Brcko to the BiH Federation. The Government said this should improve the two-way return situation, which is a pre-condition for implementation of the Brcko arbitration decision. The BiH Federation Government considers that Brcko must set the example for two-way refugee returns in BiH. BiH Federation Prime Minister Edhem Bicakcic stated that the Federation is ready to assist in the resolution of individual cases of persons from Brcko that want to return to the BiH Federation, in order to make room for new returns to Brcko. Bicakcic said that BiH Federation Cantons would be given the priority in resolution of Brcko returns.
