HSS considers that HDZ BiH continues with manipulative method

The HSS considers that the HDZ BiH is continuing to use methods of manipulation. Backing their claim, the HSS used the example of a press release mentioning the results of a meeting of representatives of Croat institutions held on 18 January for which the HDZ took credit. Another example is an article in the newspapers with the headline "Response of the Croat Political Leadership on the Processes of De-Constituting Croats in BiH" attempting to leave the impression that the article was written according to the minutes of that meeting. The HSS said that such claims are incorrect because such an issue was not discussed at the meeting.
