TV BiH News Summary:

NHI declines to participate in Novi Travnik all-Croat congress

(00:38)

The NHI has declined to participate in the Novi Travnik all-Croat congress scheduled for October 28 since the party considers the event to be no more than compensation for past HDZ failures in dealing with other Croat parties in BiH. The NHI's decision is based on the recognition of what they call a well-known game being played by the HDZ in which the party tries to secure a public forum just before the November elections as a means for announcing a referendum on the establishment of third entity.

Latest PEC decision taken without respect for Constitutional Court resolution on constituent status of BiH peoples – SDA
(00:36)

The SDA considers the latest PEC decision on the election of BiH Federation House of Peoples delegates to be in disregard of the Constitutional Court's resolution on the constituent status of the BiH peoples. This is because no mechanisms for the protection of the national interests of Bosniaks and Croats were anticipated for the RS area. The SDA also claims the PEC decision involves election engineering in the BiH Federation that will secure 20 additional seats for the SDP.
