The Fed. Govt. considered the draft agreement of special relations, stating that it incorporates the draft proposal made in December last year. They suggested that the President and Vice-President of the Fed. should make additions to clarify the details of the agreement, especially regarding the annexes and their lack of specification. The govt. complained that only one of the Fed. ministers, Minister without Portfolio Nedeljko Despotovic, had been included in the negotiations, and that the government was represented only symbolically. The most serious objections were that the agreement involves issues which should lie exclusively within the competence of the Fed. Govt. and Cantons. The Govt. also complained of the 'Symptomatic shortening of the title BiH Federation, to Federation' in the text of the agreement. The agreement must now be given authorisation by the Fed. Parliament, before coming into force. TV BiH learned that the agreement will not be signed in Zagreb on 9 December, but on

19 November.
