In accordance with the legal procedure, the issue has been forwarded to the RS Constitutional Court .</p>
<p>Paravac: Tihic lost political compass</p>	<p>RTRS Fri, Dnevni Avaz Sat pg 4 'Paravac: Tihic lost political compass' by <u>Onasa-</u> "[Sulejman] Tihic's announcement that he would file a request for a change of the name of the Republika Srpska indicates that he has lost his political compass and that he has been misusing his position as Presidency chairman with the aim of promoting his party's programme," reads a statement issued by Borislav Paravac, member of the Presidency. It goes on to say that a proposal would be made to the BiH Parliamentary Assembly that it launch the procedure of endorsing the bill on the BiH Constitutional Court as soon as possible which will include establishment of the council for the protection of national interests. <i>"It is evident that Chairman Sulejman Tihic and his followers have been using the BiH Constitutional Court to change the constitution of BiH and the constitutions of its entities,"</i> reads the statement, adding that the BiH Constitutional Court is the only BiH institution in which consensus is not envisaged.</p> <p>Vecernji List Sunday pg 2 'Bosniaks will block national consensus in Constitutional Court' by <u>E. Medunjanin</u> – After summer vacation Serb representatives in the state Parliament will launch the initiative for adoption of Law on the BiH Constitutional Court by which a new way of decision-making in this body would be regulated. VL says that the Serb representatives decided to take this step because of fear that the BiH Constitutional Court might positively respond to the announced demands of Sulejman Tihic.</p>
<p>RTRS int with Tihic on his initiative</p>	<p>RTRS Fri by <u>Aida Halilovic</u> – Sulejman Tihic, chairman of the BiH Presidency, has stated that he will make the final decision on initiating the procedure for the assessment of the constitutionality of the name of the Republika Srpska once he has considered the legal basis and potential political consequences of such a decision. He adds some of the representatives in the republican parliament were politicizing this issue in view of the election campaign, stressing that has been repeating the requests for the reexamination of the constitutionality of the Law on the Insignia of the RS] for several years now, and only now have these requests been condemned in the RS. <i>"And it was precisely because of the lack of understanding and the campaign against it, as well as the creation of a negative atmosphere and attitude towards me that I have started thinking about this other initiative and the possible consequences,"</i> said Tihic in an telephone interview to RTRS. If the Bosniaks and Croats are equal in the RS, as its constitution says, Tihic said that he did not understand why that equality should not be expressed through the insignia. He emphasized that the symbol of one people could not be the symbol of the other two peoples. Tihic reiterated that he had also requested that the insignia in the FBiH change: <i>"I have never in my life done anything that would harm the Serb people nor will I do so in the future, you can be certain of that. I therefore completely reject the accusations that some of the RS politicians have made. My goal is to help the democratization of the RS, so that it becomes a multiethnic entity in which human rights and freedoms are observed and in which full ethnic equality is secured."</i> Tihic says that a bill on national insignia should be passed because he believes that the name of no town, canton, or entity should contain ethnic elements</p> <p>Dnevni Avaz pg 4 'Name Republika Srpska is contrary to Europe convention on human rights' by <u>Aj.D.</u> – Similar statements to the report given above were also made by Tihic in an interview to DA.</p>

Such a political engineering of SDA leader is very dangerous for the Dayton BiH and I believe the BiH Constitutional Court would reject Tihic's initiative on changes to the coat of arms, flag and hymn of RS'. He also commented the removal of 59 officials in RS, possible removal of SDA Ministers, arresting of war criminals, Resolution on Cooperation with ICTY and future of SDS. The inset 'Fear' reads: 'Ashdown's removals have produced until now the greatest institutional and political crisis in RS and also, what cannot be seen, an additional level of fear and mistrust both within public officials and people. In shortest, a feeling of helplessness before such decisions has been created in public'.</p> <p>RTRS Fri – In the opinion of Dusan Stojicic Tihic's initiative regarding the name of RS is unconstitutional. "I am talking about the fact that the name of RS is a constitutional category according to the BiH Constitution and I think that everyone who think that he could formalize such initiative... must face the fact that he will be proclaimed a person violating BiH Constitution".</p>
<p>Ashdown says political turmoil in RS is pre-election game</p>	<p>Dnevni Avaz Sat cover page 'Ashdown: I will stay till November 2005', pg 5 'I'll stay in BiH till November 2005' by <u>Sead Numanovic</u> – In an interview to daily, the High Representative Paddy Ashdown was asked to comment current political turmoil in Republika Srpska: "I am afraid that these all are typical pre-election games. All three sides quite intentionally try, on the wings of nationalism, to take as much as they can. They simply compete how is bigger victim, which directly damages reforms process. Nationalist parties play they nationalists games, and reforms suffer. This endangers BiH's road to Europe and NATO in long-term."</p>

At the last session of the Peace Implementation Council it was concluded that if this speed is maintained and if the laws are implemented, we could start with SAA negotiations in the spring next year." Ashdown was also asked to explain what is the focus of OHR's work: "We are working to ensure that reforms are continued and that things adopted as the legislation on this way are implemented... HDZ President Barisa Colak comments: <i>"When it comes to third entity, I have to say that I don't believe that entities have any future, especially those with the tendency to maintain the state within the state. True, when there would be a will of all three constituent peoples in BiH to have such three entities, than such solution could not be excluded. However, if that would be a will of only one or two peoples... there is nothing on that."</i> He also stresses that it is time to introduce changes in the BiH internal structure: <i>"We need Constitution will be adopted by the BiH Parliament, and that also means for it to protect all people and citizens... My political counterparts are afraid to talk about that."</i></p>

Medunjanin</u> – VL says that although a half out of 40 reform laws are 'waiting' in the parliamentary procedure members of the state Parliament decided to take three weeks leave.
