4. Participants expressed their grave concern over the latest murder incident in Travnik, which has inspired fear among returning Croats concerning their safety and the ability of Federation authorities to provide them with a secure environment. They agreed that the recent series of violent incidents directed against all citizens of the Federation aimed at prevent the return

of Croats and undermining the functioning of the Federation cannot be tolerated. Participants noted the importance of the thorough and impartial investigation into all of these incidents, and emphasized that there must be no political interference in the course of police investigations. Participants expressed their readiness to discuss with the IPTF additional measures to combat violence, crime and acts of terrorism in the Federation.

5. Because an extraordinary session of the Federation Parliament prevented the attendance of Federation ministers and other officials, participants agreed to resume the Federation Forum to discuss Privatization and Property Legislation, and convene two working groups on the issues of Property and Privatization Legislation composed of government officials and international experts to properly prepare the Forum to be resumed next week in Sarajevo.
