Travnik – After the yesterday's agreement for the meeting of the Working Group for refugee return in this canton, today's supposed meeting was cancelled because of the absence of Croat representatives from Jajce. As said by local officials, the reason for Croat representatives absence is an opinion that dialogues about refugee return to Jajce should be held at Jajce itself. HR deputy Wagner said that the return of expellees to Jajce should be done by Aug. 25, as agreed yesterday in Travnik, but that certain number of refugees

should return by the end of the week, as agreed a week ago.

Summary SRT TV News

Pale – the Constitutional Court (CC) public hearing – the CC begun the proceedings to review the constitutionality of Plavsic's decision to dissolve the Parliament and schedule pre-term elections. Parliament and Government agent Lukic, Plavsic's agent Trbojevic, representatives of Parliament and Government, legal experts, and representatives of the IC attended the public proceedings. Lukic said that the RS President went beyond her authorities, adding that there was no real conflict between Plavsic and Parliament that would have had to finish with the dissolution. She simply did not agree with the RS institutions and the Minister (Kijac), and instead of convening the Parliament session in order to solve the problem she dissolved it. Referring to the Constitution, Plavsic wanted to impose something that doesn't exist in the Constitution. Plavsic's agent said that Lukic should not represent a body which does not exist anymore (referring to the Parliament). President of the CC, Mijanovic complained about Trbojevic who said that the CC should not allow Prof. Cavoski (legal expert) to talk before the Court since he is biased. The President of the CC rejected the complaints, saying that Plavsic also appointed two scientific figures to represent her in the proceedings. The CC will continue discussion tomorrow at 10:00 without media presence.

Banja Luka – Plavsic met the SFOR Commander Shinseki, the Special Envoy of the UN Secretary General, Aide and IPTF Commissioner. Within this item SRT reported that the IC continues with its pressure on the RS in order to reduce its police forces and bring them in subordination to SFOR and IPTF, special police forces in particular. Although there are no disputable acts which violate the DPA, SFOR and IPTF do not give up counting the RS policemen. After the meeting Shinseki said that they discussed the reorganisation of police, aiming to show Plavsic generous intentions of the IC when this issue is considered. Aide said that relations will soon be re-established.

Muslim Sarajevo – Krajisnik met the Norwegian Prime Minister and discussed the political situation in the RS and Federation with regard to the Sintra Declaration. Krajisnik said that Norwegian Prime Minister showed great interest in the situation. He underlined that RS should be treated equally with the Federation regarding the allocation of financial aid. Presidency session which should have been held today was cancelled because of Zubak's absence. Krajisnik had also met Izetbegovic separately and judged this meeting as 'useful', and that he had met WB representatives who promised to give resources for the start of three projects in the RS.

Comment of the RS Government with regard to Plavsic's decision to extend the OSCE and PEC mandate – The Government condemned Plavsic's decision, even more since the CC convened the public proceedings to review of Plavsic's decision on dissolution of Parliament. The Government thinks that scheduling of the elections before the CC makes the final decision would directly violate the RS Constitution. Again without consultations, the President offered the extension of the mandate to OSCE and PEC, although the Government is not satisfied with their work for quite some time. OSCE still hasn't solved the problem of the Brcko voters, hasn't made the voters' lists, and the Government hasn't really decided yet whether it will allow OSCE to supervise the elections. The Government said that it is only the matter of its good will to leave the organisation of the elections to OSCE. The Government is stunned with the fact that the RS President, although informed about the above, gave the authority to OSCE to carry out the voters' registration.

The RS Government's comment with regard to Plavsic's statement given at the Press conference and on SRT on August 11 – The RS President misjudged MUP and Minister of Interior, Kijac as guilty for the situation in Brcko and again misinformed the

public. Therefore, the Government announced a letter which was sent by Brcko MUP to the IPTF Commissioner on July 26 1997, and also sent a copy to the RS President, UN High Representative (probably HR) and others. (SRT quoted the whole letter). On July 23 MUP received a letter from Brcko Mayor Pajic in which he informed MUP about a meeting he held with OHR Brcko with regard to issuing IDs to Muslim returnees. OHR warned that non-implementation of the Brcko decision can severely influence the final Brcko decision. Furthermore, at meetings held on 4 and 7 July MUP Brcko agreed with OHR to establish three 'check points' (offices) for issuing IDs to Muslims in Omerbegovaca, Brod and Ulice. Muslims would get IDs within seven days after they apply because of the administrative problems. The situation in Brcko is satisfactory with regard to the security, which is provided by the RS police. Serb side is ready to talk to either Government or IPTF and other internationals if necessary if the above is not true. Since none of the internationals replied, the Government understood that they had no complaints.
