Summary SRT TV News

Representatives of the RS state institutions, Dragan Kalinic, Gojko Klickovic and Aleksa Buha held a press conference in Pale today. The main themes were the conclusions adopted yesterday by the RS Assembly. Kalinic stressed that the Serb Parliament is one of the main pillars of the RS. Commenting on certain personnel changes in the Government, Klickovic said

that they were necessary due to the inability of some Ministers to adjust to the current situation. All attempts to divide the RS must be categorically stopped, concluded the RS officials at today's press conference.

Kalinic: "The Assembly was one of the main pillars of our state, being that in a war or peace time. Yesterday's session proved that the state's main institution is functional despite the chaos and unconstitutional behavior in one part of the RS."

Klickovic: "We made some changes in our Government in order to help this institution carry out the decisions of the Constitutional Court and to stop this fierceness of Biljana Plavsic. The events in the last two days have nothing to do with human behavior."

Buha: "OSCE gave the last amendment to the election rules on August 7. Such a practice can not be found anywhere in the world. If the game started under a set of rules, it should be carried out according to these rules, agreed upon at the beginning. OSCE also does not keep it's word, since they promised me that they would have a list of names for each municipality ready by 20 August. We know what date it is today and we have not received these lists." Minister of Information, Svjetlana Siljegovic, said that the session yesterday was held behind closed doors not because of the subjects of the discussion but because live broadcast, which would cover the whole RS territory, could not be enabled." Klickovic also said that the Public Prosecutor will initiate a process against people responsible for illegal usurpation of the SRT relays. He also confirmed rumors that SFOR is willing to help in such actions. SFOR must stop that immediately, warned Klickovic.

Die Welt contains an article which claims that the Serb division in RS is actually the result of the Western offensive.

Der Spiegel says that Biljana Plavsic and her party would lose at the general elections, if they take place. In that way, the West would be disgraced.

Junge Welt claims that Biljana Plavsic is using the BL TV for making absurd accusations against Mr. Krajisnik. At the same time, the HR Carlos Westendorp is welcoming the split of the SRT. This interference of Mr. Westendorp in the work of the media can only be compared to the international illegal and scandalous threats of the HR to shut down the SRT, concludes the newspaper.
