**Sarajevo** – The US delegation, headed by the Special Envoy for Implementation of the DPA, Gelbard, visited BiH for the purpose of speeding up the implementation of the DPA and the establishment of the Central Bank, particularly the common currency. They met the BiH Presidency members at 16:00 and the meeting is still going on. Although Gelbard showed great optimism with regard to establishment of the Central Bank and joint currency, it seemed that there were no satisfactory solution in sight. He separately met the BiH Presidency Member Krajisnik in Pale, as well as President Izetbegovic and Presidency member Zubak, to discuss the issues of implementation of the DPA and QSP Laws. Gelbard and the delegation met the BiH Foreign Minister Prlic and his two deputies and discussed the diplomatic activities of BiH.

Gelbard also handed US President Clinton's letter to Izetbegovic, which was an answer to Izetbegovic's letter from April 21, '97. President Clinton has assured Izetbegovic that the US diplomacy is determined to implement the DPA and reminded him of the fact that the US Administration helped BiH to reach peace and economic recovery. He has said that he shares Izetbegovic's opinion that much more must be done for the establishment of a permanent peace in BiH. Gelbard conveyed Clinton's position that he and Albright are the representatives of the official US Foreign policy towards BiH.

**Sarajevo** – the 5th session of the Federation HoR – HDZ MP's did not attend the session. They sent their two MP's to read the letter of explanation, in which it says that SDA and their MP's are trying to infringe upon Croatian interests in BiH by adoption of decisions through outvoting, as was the case with the essential laws that were passed without the Croat MP's and

ignoring the agreement on the two party's partnership. The Parliament Speaker, Kreso, responded to the letter, saying that the work of the Parliament has been in accordance with the DPA and that the Parliament Rules of Procedure were adopted by all MP's. MP Kadic said that the absence of HDZ and their letter are a blackmail in the aim of blocking the Parliament, whereas MP Ajanovic said that the HDZ is acting in contradiction with the Federation Constitution. Due to such circumstances, the work of the Parliament was not very successful. The Budget Law should have been discussed and adopted but the opposition parties decided to restrain from voting, thus the rest of the Parliament members didn't have the quorum to adopt the Law. MP's also sent an appeal to the international community to appoint Ambassador Steiner as the new High Representative, and started an initiative of helping Iranians who survived the earthquake which struck their country.

**Sarajevo** – The Commission for Implementation of the Arbitration Decision for Brcko and the representatives of different political parties held a meeting and agreed to continue talks with OSCE and the High Representative about changing of the elections decision for Brcko. Members of the Tuzla-Podrinje Cantonal Assembly sent a letter of protest to Brcko Supervisor Farrand, saying that he had done very little on return of Brcko citizens since he became the Supervisor, although he had more than enough time to make progress with regard to that issue. 'Because of your activities, the expelled Brcko citizens are losing their hope that they will ever be able to return. You haven't given any real guarantees for the return of refugees so far, quite the opposite, the returnees must accept the RS documents on your own request,' Fuad Hadziabdic, the Assembly Speaker said, adding that MP's are expecting him to give his personal contribution for the purpose of changing the election rules so as to guarantee the right to vote for all refugees who lived in Brcko before the war, in accordance to the 1991 census, and to vote at the local elections at a single electoral unit – the whole pre-war Brcko municipality.
