**Tesanj** – After a week, the Federal Prime Minister Bicakcic visited Tesanj again. The aim of his first visit was to establish the Law on New Municipalities creation, but at that occasion, dissatisfied locals made a road block. The analysis of the last week events was the only subject of today's special Municipality Council session. At the meeting, the disagreement came out between local police authorities and Bicakcic. The disagreement was caused by the opinion of canton councillors and police authorities who made an impression that Bicakcic came to release them of their duties. The Federal delegation said that they did not come to replace anyone, but to determine the factual conditions, and to act in accordance to that. The final decisions were that the blocking the roads are not the good way to solve things, and that today's coming of the Federal delegation did intend to create any conflicts.

## Summary SRT TV News

The 11th session of the Parliament which should be held on Aug. 8 is postponed for seven days, Klainic said, because of a funeral of the SRS (Serb Radical Party) MP Rakic.

**Lukavica** – SRT commented that US, dissatisfied with the implementation of the DPA in which they invested huge financial resources, does not mind doing anything in order to achieve their goals. HR Westendorp obviously did not meet the US high standards so he is marked as Carl Bildt's weak

successor. But while the State Department is accusing Westendorp, he is enjoying his vacation. Therefore, US had to react quickly so it sent the former US Special Envoy for Implementation of the DPA as well as the current one. Old-new Holbrooke should revive the DPA and inject a new dose of dynamism into the process.

Holbrooke and Gelbard met the joint Presidency, and then held separate meetings with each one of the three Presidents. They talked about Jajce and Vogosca incidents, adoption of various laws and the work of the joint institutions. The meeting with Krajisnik started at 18:00 and wasn't over by the time SRT sent this report. Since there was no agreement on the above issues, the Presidency should meet at about 21:30 to continue its work. Holbrooke and Gelbard also met the CoM, and discussed adoption of the Citizenship Law and Law on Passports. The CoM could not reach an agreement either, and they will continue their discussion on Friday morning. HR Senior Deputy Wagner also attended the sessions.

RS Foreign Minister Buha gave an interview to Belgrade papers Blic, saying that Plavsic has become deeply involved with one part of the IC which threatens, blackmails, and intends to reintegrate the RS into a unitary BiH. He asked Plavsic if she realised that she had started a fight against crime in RS supported by high-ranking criminals whose main aim is the destruction of the RS. Plavsic's accusation targeted against Krajisnik and Kijac (they are responsible for incidents that occurred after SFOR action in Prijedor) are yet another link in the chain of her irrational policy. Commenting on Holbrooke's visit, Buha said that 'Holbrooke is known as a robust or unscrupulous person, and he is not a player who could achieve anything anymore. The US Envoy is Gelbard, whereas Holbrooke will arrive, furiously visit everybody, and leave. We know that we cannot accept anything which is not in line with the DPA. The implementation must be carried out

slowly because all three sides and the IC have experience in the implementation.'
