## News Summary

### IMC decision on Radio Drvar

According to ONASA, Croat representatives in the Drvar Municipality believe that the IMC decision to ban the broadcast of Radio Drvar has brought a complete block of information to this town. The IMC has decided to ban this radio from broadcasting for ninety days due to the non-exemplary content and inflammatory threats to Serb returnees, which violates the IMC's code. Station Director Mijo Brkic believes that this decision will negatively influence the processes of refugee return and privatization because Radio Drvar covered these topics widely.
