News Summary

IC representatives support New York Declaration

Representatives of the International Community in BiH remind that the functioning of a sovereign country that will unite all nations and maintain an economy without political influence or corruption are necessary for peace and stability. That is part of the joint press release signed by High Representative [Wolfgang Petritsch](#), Head of the [OSCE](#) Mission to BiH Robert Barry, [UN](#) Envoy to BiH Jacque Klein and [SFOR](#) Commander General Ronald Adams. BiH nations must demand that leaders consider that a sovereign country is lawful. The New York Declaration is an encouraging step. The International Community and BiH nations are working together to undo the physical and moral consequences of war, but divisions and

ethnic intolerance still exist in BiH.
