News Summary

Serb Party of RS press release

The Serb Party of the RS issued a press release. The party, like a sincerely democratic party, sent its party institutions demands of the OHR and [OSCE](#) for the dismissal of party President Predrag Lazarevic from all managerial functions in the party. The party unanimously decided not to accept the demand at an unscheduled session on 20 October. The President of the Serb Party of the RS did not participate in the session. The Serb Party of the RS will explore all legal ways of rejecting the demand, which they consider to have no legal basis in the first place.
