News Summary

SDS holds press conference

At a press conference held in Banja Luka, SDS Vice-president Dragan Cavic stated that the party would not accept the proposed agenda for the 9th RS National Assembly session until all conclusions from the 8th session are realized. He added that the Assembly concluded that RT RS should submit a complete report on its work to the Assembly and, although RT RS did so, the Assembly leadership, i.e., Sloga, did not discuss the report. The SDS will not accept this. He also presented a document drafted by the RS Health Ministry, Goods Reserve Office and Pensioners' Insurance Fund for municipal

Sloga leaders, stating that the RS Government would give gifts to pensioners. Cavic believes that, by doing this, Sloga abuses authority institutions in order to secure voters for the upcoming elections. SDS President Dragan Kalinic discussed the two-year results of Sloga, saying that it leads the RS into catastrophe. All economic data shows a difficult economic situation during Sloga rule. During the first nine months of 1999, production decreased by 1.5% per month, prices increased by 15.3% and the cost of living increased by 18%. According to Kalinic, foreign taxpayers who invest in the RS know very little of this. Should Sloga reject the most recent proposal of the SDS for a compromise that would save the RS, the SDS would take over partial responsibility for the destiny of RS. By using all democratic methods and allowed political means, the SDS intends to overthrow Sloga.

UNIPTF holds press conference

UNIPTF spokesperson Alun Roberts stated at a press conference in Banja Luka that groups of citizens prevented the eviction of two families in Banja Luka on 15 and 21 December. He expressed concern over the behavior of police, because they were passive and few in number. Regarding Serb returns to Sanski Most, Roberts said that winter makes return difficult. The Sanski Most Chief of Police refused to cooperate with the IPTF on potential return. The [UN](#) and other organizations will undertake more serious measures after the trial against corrupted officials in Sanski Most. Roberts added that the employment of minority police officers in Canton 10 is not going according to plan. He concluded by saying that the Sarajevo Police Academy accepted one Serb.
