Petritsch addresses to BiH citizens

High Representative [Wolfgang Petritsch](#) informed citizens of the very difficult decision brought by himself and [OSCE](#) Head of Mission to BiH Robert Barry. Petritsch stated that they had dismissed certain officials in BiH. In New York, members of the BiH Presidency, in their declaration, stated that there was no place in BiH politics for anti- Dayton forces that intercede for ethnic hate and separation. Petritsch and Barry concluded that they should use the authorities granted to them to dismiss anti-Dayton forces. Any such decision is not brought easily. Petritsch and Barry closely investigated and checked the reasons for the dismissal of all officials. They found out whether they had been violating the law and obstructing peace implementation. The officials dismissed include cantonal ministers, governors, parliamentarians, municipal heads, mayors and employees of the Housing Issues Office. Not one of them was fulfilling their obligation to the citizens. For example, one cantonal interior minister was dismissed because he refused to suspend a police officer that beat and harassed citizens. Members of the Housing Issues Office who refuse citizens their rights in regard to homes and property were dismissed as well. The dismissals were necessary since these officials had not been carrying out their professional obligations and respecting civil rights. Responsible leadership and respect for the law are necessary

for BiH to join Europe. These are the main conditions for increased economic investment, development and employment. The dismissed officials were blocking the way to a better future.

Umicevic holds special press conference to discuss dismissal

On Tuesday in Banja Luka, dismissed Banja Luka Mayor Djordje Umicevic held a press conference. Umicevic stated that he would stay on as Mayor of Banja Luka. He added that, during the week, he would call a special session of the Banja Luka City Assembly. According to Umicevic, only the Banja Luka City Assembly is authorized to decide whether he should remain as mayor or not. Umicevic rejected the explanation for his dismissal by High Representative [Wolfgang Petritsch](#) and [OSCE Mission Head of Mission Robert Barry](#). Umicevic pointed out that he had been expecting the decision since the beginning of November. Umicevic said that someone wants to provoke incidents in Banja Luka. "They want to turn this currently good situation in Banja Luka into the same situation of conflict currently in the BiH Federation" he said. Umicevic commented on IC activities in BiH with a single word: "Protectorate." Umicevic stated that dialogue between the people of BiH was absolutely necessary. According to the decision by Petritsch and Barry, Mihajlo Crnadak, currently Deputy Mayor of Banja Luka, will take up the post of Acting Mayor of Banja Luka.
