News Summary

Dodik's Government not legal or legitimate so personnel changes aren't either – SRS General Secretary Tadic

The SRS regards the RS Government as illegal and illegitimate and that means, all of its personnel changes are illegal and

illegitimate as well. According to the SRS, these changes could be seen as the release of old members and organizations and their replacement with new obedient persons. These new persons are conducive to the main goal of this Government: the end of the RS national identity, the cantonization of the RS and its introduction into a unitary BiH.
