News Summary

SRNA stops wiring news to RT RS

SRNA acting Director Dragan Davidovic decided to stop wiring news to RT RS. In an explanation Davidovic stated that the SRNA news report on the RS Government dismissing RT RS General

Director Andjelko Kozomara, a story confirmed by RS Information Minister Rajko Vasic, was misinformation and an attempt by International RT RS Administrator Dragan Gasic to destabilize RT RS.

CD Coalition request to enter RS Government legitimate – Sarovic

RS Vice-president Mirko Sarovic, in an interview to Dnevni Avaz, said that the CD Coalition request for Bosniaks to enter the RS Government is completely legitimate. He added that the request of the SDS and SRS was also legitimate. Sarovic said that RS Prime Minister Milorad Dodik has been squeezed between the two sides and that he now had to decide whether he would create a multiethnic government or a government of Serb national unity. In Sarovic's opinion, Dodik is now leading a minority government by using both sides against the middle, but gives nothing in return. According to him, it is obvious that the system can no longer function like this. He believes that the Bosniaks should enter the RS Government, however, questions remain as to when and in what form. Commenting on division within the SDS and rumors it would divide into two parties, he said that the SDS is a big party that believes the situation in RS must be treated realistically. According to rumors, Momcilo Krajisnik leads one of the SDS factions, while the other is lead by Dragan Cavic and Mirko Sarovic. Sarovic added that the RS has made progress in cooperation with the [ICTY](#), adding that persons on public indictment lists are not receiving state protection. Sarovic concluded that the authorities would require the publication of secret indictment lists because certain people could then turn themselves in voluntarily.
