The RS President, Nikola Poplasen, today addressed an open protest letter describing the murder of Dragan Gagovic as a brutal act and as being in violation of the [SFOR](#) mandate. The way in which the action was organised and carried out indicates that this was originally planned to be a deliberate liquidation of another Serb who will not have a chance to prove his innocence, rather than an arrest attempt.

Following the murder of Gagovic, President Poplasen also addressed a protest letter to the [SFOR](#) Commander, General Meigs. "Circumstances in which the murder was carried out make me conclude that the action was carried out in serious violation of the [SFOR](#) mandate...What is especially concerning us is the fact that the lives of several children were endangered during the action which should not have happened...Gagovic is killed and his guilt has never been proved...Gagovic was not armed and offered no resistance at the time of his murder which makes me conclude that [SFOR](#) troops overstepped their mandate and thus led to tragic consequences... I insist that any such similar actions should stop, or, otherwise, nobody will be able to assume responsibility for possible reactions by upset and dissatisfied citizens".

Citizens of Srbinje still remain strongly upset at the murder of Dragan Gagovic. Parents of children who were with him at the time of his murder have, today, announced that they will complain with international organisations to seek that the rights of the five children whose lives were directly endangered will be protected. The circumstances in which the murder took place clearly show that this was a prepared and organised action. The family of murdered Gagovic was today visited by the RS Vice – President, Mirko Sarovic, who extended deep condolences on behalf of the top RS leadership and on his own behalf.

The leadership of the Gorazde municipality, local political parties, the local organisation of fighters as well as citizens of the town today condemned the murder of Dragan Gagovic which took place in the territory of this municipality. SRNA has quoted a statement by the local Mayor saying that the embitterment of the local public was even stronger because of the fact that Gagovic had been murdered in the presence of five children who luckily avoided a tragedy themselves.

The Spokesperson for [SFOR](#), Sheena Thompson, told SRNA that the [SFOR](#) action in which Gagovic had been murdered was fully in line with the [SFOR](#) mandate and that the responsibility for the murder lied exclusively with Gagovic himself. According to Thompson, after an autopsy had been carried out by [SFOR](#) forensics, Gagovic's dead body was this morning taken to Srbinje and would be delivered to the family in the course of today. Thompson claimed that the intention of [SFOR](#) troops was to arrest Gagovic in a peaceful way, but that he unfortunately had chosen to ignore an [SFOR](#) check-point and failed to stop and thus brought his own life, lives of [SFOR](#) troops and his passengers into jeopardy.

Dragan Cavic, the Deputy President of the SDS Presidency, at a press conference today, expressed SDS's shock at the brutal way in which Gagovic had been murdered by [SFOR](#) troops and amazement over the fact that [SFOR](#) had also endangered the lives of children. SDS called on international humanitarian organisations to appeal to [SFOR](#) to make sure that lives of innocent people should not be jeopardised in future similar actions. On the issue of the new RS PM designate, Cavic said that Brane Miljus had overstepped his mandate and that the SDS was going to support any PM designate who would be able to ensure unity amongst the Serbs. Cavic went on to announced that the SDS was planning to meet with Miljus in the near future to discuss their possible support for his cabinet. "The SDS will only move to support Miljus provided that he corrects some of his views". Today's press conference again voiced certain objections regarding the work of SRT. Cavic reacted to the commentary aired in last night's SRT evening news and described it as a pamphlet. Cavic went on to request that the name of its author should be made public, that he/she should be sued and that the SRT leadership should resign. Cavic was also critical of SRT reporting on the murder of Dragan Gagovic. "The murder of Gagovic was a headline on TV and radio stations all over the world with the exception of SRT". SRT wishes to remind that they were the first to air the report on Gagovic's murder and film the scene of the tragedy in its news programmes.

01:02

The Sloga Coalition today addressed an open letter to President Poplasen stressing that the nomination of Miljus and his subsequent statements had been designed to create a perception in the public that the PM mandate had actually been given to the Sloga Coalition. The detrimental behaviour of the new RS PM designate makes the President fully responsible now. The Coalition proposed that Poplasen hold a joint meeting in the next two days to check respective positions through a

dialogue.
