OHR’s Statement at the International Agency’s Joint Press Conference in Banja Luka

“How much further – Three years later”

I would like to remind you that OHR has launched TV documentary titled “How much further – Three years later”, with the aim to recall characters from the original TV series.

Closing in on its participation in process of return, following BiH institutions taking over this matter, OHR wanted to point out the problems displaced persons and returnees still face.

At the end of 2003, OHR produced TV documentary “How much further – Three years later” based on follow-up on 15 out of 30 stories produced in December 2000. We meet the same people in the sequels, finding out what has changed since the first documentary was recorded. We shall see: Are they back home; Has there been any improvement; What kind of decisions they have faced with? The documentary also tries to answer whether their lives have been improved and for how long BiH will be facing the question of displaced persons.

BiH citizens will have chance to see this documentary at 24 TV stations in the whole of BiH over the next three weeks. I shall name only a couple of them: RTRS, ATV, BEL TV, FTV, RTV USK, HT MOSTAR, OSKAR C, etc.

TV Documentary “How much further – Three years later” was officially presented in Mostar on May 17.
