

Statement by OHR/EUSR Director of Communications, Frane Maroevic

We have received the police reform proposal by the two HDZs and welcome their initiative and constructive role to find a solution.

We are sending it to the relevant EU institutions for a more detailed assessment whether it conforms to the EU principles.

Our first impression of the paper is positive, it seems to contain sufficient detail.

On the other hand, as we have already stressed in the past, it is also important for us that any proposal – apart from its substance – should have necessary majority of relevant political parties in BiH.
